WORK EXPERIENCE

Associate Consultant
Wipro Limited -2018 Jun-2022Jan

Associate Projects
Cognizant -2022 Jan-Present

EDUCATION

RMD ENGINEERING COLLEGE
B.E, (Bachelor of Engineering) Majored in
Computer science & Enginnering 2014 -
2018

PROJECT : THAMESWATER BW/4HANA:

IMPLEMENTATION PROJECT

- Worked on the delivery of two modules as part of decommissioning a tool which is to be implemented in BW/4HANA and SAC.
- Created the complete Dataflows from the Data source level to the Query level using the LSA++ Architecture.
- Developed various queries on top of Composite Providers and ADSO's.
- Worked on creating the ADSO,Composite Providers,Info objects and their data flows.
- Performed Extraction,Transformation and Consolidating the data for the Analytical Reporting.
- Performed the Data Extraction part from the source systems.
- Closely worked with SAP ECC and SRM systems as source systems.
- Was involved in the tasks when performing the Depolymet activites.
- Worked on the Material Management and HR modules.
- Creation of the Process chains foe all the flows that have been created for the data loading.

PROJECTS

NOVARTIS

JAN 2022-PRESENT

Worked on SAP BPC &SAP BW

THAMES WATER

JULY 2020-JAN 2022

Worked on
SAP BW/4HANA and SAP BW

ATCO GAS

AUGUST 2018 -JUNE 2020

Worked on
SAP BW

PROJECT: ATCO GAS SAP BW Development Project

- Worked on Creation of the InfoProviders-cubes,DSO,Infosets,MultiProviders.
- Worked on the creation of the Transformation mapping formulas and source code routines.
- Worked on the Data loading in the BW system by using Infopackages and DTP's
- Wrote complex queries/formulas and created calculated key figures, Restricted key figures custom Reporting formula/text variables in BW Query designer to generate required reports.
- Worked on various issues involved while performing the data loads.
- Worked on creation of the process chains. And monitoring those loads and resolving the issues with the load failure.
- worked with BW/4hana Cockpit.
- Worked closely with the ECC system as the source system.
- Created BO Reports on top of the Bex reports and also solved report level data issues.
- Created Lumera reports in BO server on top of info providers.
- Performed Post Refresh activities in the BW system when ECC system is refreshed.
- Was performing House keeping activities in the production system.

PROJECT: NOVARTIS SAP BPC & SAP BW Support Project

- Good Working knowledge on resolving the issues related to the data mismatches across the various layers between the SAP and BPC.
- Working knowledge of the Logic implementations between the various layers, such as Transformations-routines, Rule-Mapping in BW,
- Also, on BADI-logic scripts between the BW and BPC.
- Working Knowledge on various types of key figures used, and also where and how exactly the calculation logics are implemented for those key figures.
- Was part of the health checks in the initial period, which involves handling all kinds of the master data and transactional
- Data load failure issues and fixing them.
- Developed an Audit Automation model which involves clearing the Data from the Archive tables using Process chains, and also Housekeeping activities, such as selective deletions, Clear packages, maintaining control table Parameters.
- Majorly focused on modules such as Sales, Headcount, IS, Expenses &Allocation.
- Good Working knowledge on Currency Conversions & Currency rates.
- Working Knowledge on creating the Reports in BPC, also very comfortable with using standard Templates.
- Good Working Knowledge on the Divestment brand, Adjustments, Budget versions, and Forecasting data.
- Working Knowledge on Restoring the data in BPC from the backup Versions, also handling all the issues while exporting the data to various other systems such as Genie.
