Ballolige mane , Andinje post and village, Belthangady taluk.

### Objective

To enhance my professional skills, capabilities and knowledge in an organization which recognizes the value of hard work and trusts me with responsibilities and challenges.

### Experience

#### Infosys BPM limited

28-01-2019 -

System engineer

\*I am working as production support for IMAP ,IGLS and SLAM tool.

\* IMAP & IGLS is Infosys internal finance tool , resolving the production issues and monitoring the SQL jobs , Case creation etc.

\*SLAM is consolidated reporting solution for measuring and presenting metrics and KPI'S across the multiple regions for the user's.

\*We used to manually upload the Excel sheet data sent from user to the dashboard in front end,where dashboard shows the metrics and kpi values .

\*I have automated data uploads using data import configuration using dotnet and also have developed a Excel macros for the data uploads where data can be arranged sequence order and also we will have accurate data in dashboard without any decimal error in data.

\* I have created a mail alert , SQL jobs for the issue's which gives alerts to user about the issue in production

\* I have good knowledge about SQL ,Database
