## Career Objective :-

I want to enhance my skills at every field and learn every technologies of the world. Because of after integrating these technologies we can create something new and go toward the creator world. My aim to create something new which no one see but need of it in the world. By creating that product I want to be as my India known as the creator of the Technology, most of the foreigner think Indians as a workers. But after creating the new product I will prove that foreigners our India also a creators mother not as the workers.

## Academic Qualification:-
