**Email:** akhil.veeramreddi@gmail.com

**Phone:** +91 9553058765

Having accumulated around two years of hands-on experience in the field of software engineering, design, and testing, my primary area of expertise has revolved around the development and implementation of REST APIs. In addition, I possess comprehensive knowledge and proficiency in both manual and automated testing methodologies, encompassing all aspects of the testing process, including test planning, implementation, and execution.

- Proficient in designing APIs using the Open API Specification
- Experienced in designing transformations in Jitterbit
- Good knowledge of Gravitee APIM
- Good Knowledge of writing Postman Tests
- Strong understanding of SQL Server
- Proficient in developing automated test suites

## **Technical Skills**

- Programming Languages : Python, Node JS
- Web Technologies : HTML,CSS, Bootstrap
- Database : SQL Server, Mysql
- Automation Testing : Robot Framework Automation (Python + Selenium), Postman
- Integration & APIM Tools : Jitterbit,MuleSoft,Gravitee
- Unit Testing : Jest

## **Work Experience**

**Company:** Cloudseed Technologies LLP, Hyderabad

**Designation:** Software Developer

**Duration:** From November 2021 to Present

## **Projects**

### **Project 2: SA Home Loans Website**

**Client :** SA Home Loans

**Environment:** Jitterbit, MuleSoft, Gravitee, MS SQL Server

**Role:** Integration Engineer

**Description:** SA Home Loans is a mortgage finance company and mortgage insurance provider. It is an independent, non-bank home loans provider that has played a pioneering role in creating a more diverse financial infrastructure in South Africa. As a specialist home loan provider, its operations cover the full spectrum of home financing: from its own sales force for origination, in-house credit structures, through to ongoing client and loan servicing and related insurance products

#### **Responsibilities:**

- Designing REST APIs and Deploying.
- Developing Transformation for request and response bodies.
- Writing API Test cases in Postman

### **Project 1: D-Kube Automation**

**Client:** One Convergence, Hyderabad

**Environment:** HTML, CSS, Javascript, Python

**Role:** Testing Engineer

**Description:** DKube supports an end-to-end MLOps workflow from feature engineering through production deployment. The platform is based on the popular Kubeflow framework, bringing together its powerful components and enhancing them with best-in-class capabilities such as Feature Engineering, Tracking and Lineage, MLFlow-based metric collection, and comparison, Flexible data source integration, CI/CD-based automation

#### **Responsibilities:**

- Manual testing
- Automation Testing using Robot Framework Automation

## **Educational Qualifications**

- B.Tech (CSE) from CIST affiliated with JNTU, Kakinada with a CGPA of 7.2.
- Board of Intermediate Education with 82%.
- S.S.C from the State Board of Secondary Education with a CGPA of 7.8.

## **Personal Traits**

- Self-Organized
- Adaptable
- Team Player
- Time management
- Strong Work Ethics
