## PROJECTS

EPRN: (EasyFill Pharmacy Retail Network) - Kroger

Key Role: Application Developer

Description: EPRN is a pharmacy solution. It comes with modules which help in the prescription filling, patient accounts, workflow management, DUR, compounding and all other activities that are required to run your pharmacy in the best possible way.

Technology Used: - Java, Spring Boot, PL/SQL, Git, JIRA, Team city, Docker

Vel- Celebrations:

Key Role:  APIs Developer

Description: Vel Celebrations is designed for digital invitation of multiple events like Naming ceremony, Birthday, Marriage, Marriage Anniversary, Corporate meetings etc.  It is easy to upload images with data so that it is easy to invite and share full details of events with invitees. We are providing them to upload event location, date and time.

Technology Used: - Java, SQL, PHP, Git, Postman, GoDaddy Server

## INTERNSHIP

2016-05 -2016-06

- Completed internship on Hadoop and Big-data using BOSSMOOL (Bharat Operating System Solutions and Minimalistic Object Oriented Linux) platform.

- I have been completed research under the guidance of Dr. D Janakiram, professor of CSE department IITM on Hadoop framework using BOSS Linux for bench marking performance.

- We found that compared to Ubuntu Linux, BOSSMOOL has given accurate throughput.
