Academic Projects

AUG 2015 – APR 2018

Diploma / SVCP Sinhgad College, Pune.

Title: Online Library Management

Description: We had developed an online library management application for students and librarian. It is very secured application for the students and they can easily issue books and it also sends reminder with the return date. Students can check the availability of the books they wish to issue. This application helps librarian to track daily activities.

Language Used: Java, HTML

Operating System: Android

DEC 2018 – MAY 2019

B.Tech (5th Semester) / RMD Sinhgad College, Pune.

Title: Online Attendance Management System

Description: This is specially developed for online attendance Management where teacher can take online attendance and calculate monthly average of attendance. If any student is absent for particular lecture, his/her parents automatically receives a SMS regarding the absence. It is overcome the manual work.

Language Used: HTML and Python

Database Used: MYSQL

Operating System: Window 7

APR 2020 – MAY 2021

B.Tech (8th Semester) / RMD Sinhgad College, Pune.

Title: Semantic Retrieval of Trademarks Based on Text and Images Conceptual Similarity using deep learning.

Description: This system is used for calculating the logo similarity with deep matrix factorization algorithm and also gives suggestions for text trademarks. It also provides simple and easy to understand trademark retrieval system. This application is developed to compare logo design more accurately

Language Used: Core Java, Advanced Java.

Operating System: Windows 7 and above.
