ACADEMIC QUALIFICATION

Course	Institute	Board/University	Year of Passing	Percentage
Master of Technology (Information technology)	Vellore Institute of Technology, Vellore	VIT, Vellore	2020	8.20 CGPA
Bachelor of computer Science	Jaipur National University, Jaipur	Jaipur National University, Jaipur	2015	76%
Intermediate (12th, CHSE)	Indian Public School, Jaipur	Rajasthan Board of Education, Rajasthan	2012	75.8%
10th (HSE)	Green Field School, Jaipur	Rajasthan Board of Education, Rajasthan	2010	71.5%

PROJECT SUMMARY

Current Project:

Title	NextGen Tools
Company Name	Honeywell Solution technologies
Role	Senior Software Engineer
Duration	July 2021 Onwards
Environment	C#, .Net Core, GraphQL, Postgres, ReactJS, Electron, PowerShell, Single Spa
Methodology	Agile – JIRA
Domain	Building Management System
Team Size	8
Description	1) Platform Development: This is where we are working on a developing the platform which will be used by multiple other development teams to add their plugins into it to create one single application to handle multiple processes of BMS Domain..
Responsibility	As a Senior developer, I was responsible for developing the application components from scratch with identifying the technologies that will be used. I was also responsible for mentoring freshers in the Team and get the things delivered on time.

Project 2:

Title	SAR-LTB-PJ-MF-LEXAUTO
Company Name	Wipro Technologies (Lloyds Bank Client)
Role	Developer-L2
Duration	January 2018 onwards
Environment	C#, MySQL, Asp.Net MVC 2, GIT, Urban Code, Jenkins
Methodology	Agile – JIRA
Domain	Banking and Financial services
Team Size	4
Description	1) Bright Spark : This is where we have worked on adding new functionality of switching accounts in one of the existing LexAutoLease application. 2) LexAutoLease Security Enhancements : This is where we work on enhancing web security capabilities of LexAutoLease application.
Responsibility	As a developer, I am responsible for designing and developing all new functionalities of the LexAutoLease web application as well as enhancing the security capabilities of the application.

Project 3:

Title	B-F-UBA-PJ-INFSVCDEV - BLUE
Company Name	Wipro Technologies (U.S. Bank Client)
Role	Developer-L1
Duration	November 2015 – December 2017
Environment	HTML, CSS, Angular JS, Angular 2, Bootstrap, JavaScript, Elastic search
Methodology	Agile – JIRA
Domain	Banking and Financial services
Description	1) Golden Age Admin Design : This is where the dynamic nature of the data driven design represents the Elastic search indexes to perform CRUD operations from front end to different dashboards like Online Banking etc 2) Shield 2.0 : It is a dashboard to monitor the Application, Infrastructures, ITSM incident priorities. 3) CED : CED (Customer Experience Dashboard) is an application that providing data of customer experience.,
Responsibility	As a developer, I was responsible for development, support, maintenance, and implementation of small to medium components of a project module.
