ABOUT ME

Well-qualified Full Stack Developer familiar with a wide range of programming utilities and languages. Knowledgeable of backend and frontend development requirements.

Able to handle any part of process with ease. Collaborative team player with excellent technical abilities and committed to maintaining cutting edge technical skills and up-to-date industry knowledge.

Skills

Nodejs:	████████████████████
Reactjs:	████████████████
Typescript:	██████████████████
Mongo DB:	██████████████
Bootstrap 4:	██████████████
Express:	██████████████████

Experience

Software Developer (June, 2019 – Now) @Amdocs

Project: Optima Care (Core/Customised)

Developed a core skeleton UI for Optima Care Project which is a CRM application. As an R&D developer for this project I worked on creating a reusable react components which can be easily customised based on the client's requirements.

Technology Used: React.js, Redux, Typescript, ES6, HTML5, CSS3, Bootstrap etc.

Project: Optima Self-care (Core/Customised)

Optima Self-care is an E-Commerce web application which can be used by the end users with ease. In this project I worked on creating reusable react components which can be used by different customers to facilitate their users by providing services through E-Commerce web application.

Technology Used: React.js, Redux, Typescript, ES6, HTML5, CSS3, Bootstrap etc.

Software Engineer (June, 2017 – June, 2019) @Smartek21 Private Limited

Project: SmartBotHub

Built a middleware on top which multiple bot can be deployed on different channels (e.g. Skype, Facebook, Telegram, SMS, KiK, Slack etc.) simultaneously. Using which I built Hotel Bot, Grocery Bot, Travel Bot, Telecom Bot, Insurance Bot, On-boarding Bot with features like booking flight tickets, booking hotel room, ordering items, documents upload/download, video upload/download etc.

Technology Used: Node.js, Express.js, Redis, MongoDB, etc.

Hobbies

Project: Botbuilder

Built a framework which can be used to make bots without any coding experience. With few clicks bot can be deployed across channels (e.g. Skype, Facebook, Telegram, SMS, KiK, Slack etc.) and/or can be integrated with third party application like Dialogflow for NLP(Natural language processing).
Technology Used: React.js, Redux, HTML5, CSS3, Bootstrap, Node.js, Express.js, Redis, MongoDB, etc.

Project: Admin / Business Analytics Dashboard

Built an analytics with MERN (MongoDB, Express.js, React, and Node.js) and also with the help of third party library like chart.js for data visualization. Designed, implemented and monitored analytics web pages for continuous improvement in a fast-paced environment.

Education

PGDMC, CDAC (2016)

Completed my Post Graduation Diploma in Mobile Computing from Sunbeam, Pune (Centre for Development of Advance Computing, India)

B.E., University of Mumbai (2015)

Completed my bachelor's degree in Computer Engineering from Atharva College of Engineering in 2015 with 62 percentage on my degree and 56 percentage as aggregate

Schooling, C.B.S.E. (2010)

I got my HSC with 69.6 percentage and SSC with 80.80 percentage from Kendriya Vidyalaya , Nashik , Maharashtra

Personal Details

- Date of birth: 4 March 1993
- Marital status: Single
- Current Address: Magarpatta , Pune.
- Languages known: Hindi, English
- Nationality: Indian
