COMPANY PROJECTS

Company Name: Champions

1. Kaleidoscope for Academic Excellence

Kaleidoscope software focuses on analyzing the quality of teaching and learning. The software reveals what is happening in every classroom, without principals having to physically sit in each classroom. Kaleidoscope provides early knowledge on key aspects of student's performance, with a multidimensional syllabus-based approach to each subject. Students, parents and teachers are empowered with these detailed insights to monitor, assess and reflect on students' learning and then refocus their efforts.

2. Hospital Management Software

Software is designed for hospitals, to cover a wide range of hospital administration and management processes. It is an integrated end-to-end Hospital Management System that provides relevant information across the hospital to support effective decision making for patient care, hospital administration and critical financial accounting, in a seamless flow.
