KEY SKILLS

- **JavaScript Frameworks & Libraries** - Expertise in Angular (all versions), RxJs, React Js, JQuery, NgRx, NgXs, and Redux for building dynamic and responsive user interfaces.
- **UI FRAMEWORKS** - Proficient in utilizing Bootstrap (4, 5), Tailwind Css, Angular Material, React Styled Components, and React Material UI to enhance the visual appeal and user experience of applications.
- **CSS PREPROCESSORS** -Mastery of Sass, Scss, and Less to efficiently manage and style web applications.
- **PROGRAMMING LANGUAGES**- In-depth knowledge of JavaScript (ES6, ES7) and Typescript, with a basic understanding of PHP 5.
- **API's** - Expertise in working with Rest API and GraphQL for seamless integration of backend services with front-end applications.
- **VERSION CONTROL** - Proficient in using Git, GitHub, and GitLab for effective version control and collaboration.
- **TOOLS** - Experience with a wide range of tools such as JIRA, Postman, Swagger API, Angular CLI, NPM, Bower, Gulp, Grunt, Figma, Azure CI CD, AWS Cloud, Docker, Webpack, Sonar Qube, Lighthouse, and Babel to streamline the development process and ensure code quality.

CERTIFICATIONS

TripleByte Certified Front End Developer.

TripleByte Certified React Js Developer.

WORK EXPERIENCE

Senior Frontend Engineer (Angular)

Scale SDM, Jaipur | Nov 2023 - Present

- Spearhead the front-end development activities for SCALE India, contributing to the establishment of a high-performing software development team.
- Design and implement complex features within the existing software architecture, optimizing code for enhanced efficiency and user experience.
- Played a pivotal role in building and extending the core tech team, ensuring the development of high-quality, cutting-edge, and scalable software solutions.
- Led the front-end development efforts, resulting in reliable features being delivered for the SCALE.sdm product suite.

Senior Software Engineer

Kellton, Gurugram | March 2022 - Nov 2023

- I played a vital role in the development and maintenance of Angular and React Js applications for our company's clients, encompassing web apps, mobile apps, and API integrations and working alongside fellow developers.
- Contributed to the implementation of new features in existing projects and the creation of innovative products using modern technologies like Angular 13, NodeJS/Express, React, Redux toolkit, TypeScript, and RxJS observables.
- As part of my responsibilities, I provided technical leadership to junior developers, continually guiding them to enhance their skills. I also actively participated in code reviews, offering constructive feedback to improve the overall quality of work throughout the organization.
- Collaboration with cross-functional teams was integral to my role, as we collaborated to design, develop, and maintain scalable and reusable code. Whenever production issues arose, I efficiently troubleshoot and debugged them, swiftly implementing appropriate solutions to minimize downtime.

Senior Frontend Engineer

CommerceUp, Gurugram | Feb 2019 - Feb 2022

- Skilled in designing and developing Angular and React JS applications, with a focus on coordinating offshore development projects.
- Extensive experience in implementing, customizing, and integrating eCommerce sites using Angular 10.
- Successfully created a real-time monitoring dashboard that tracks user traffic and generates revenue insights using Angular High Charts and similar tools.
- Developed a user-friendly eCommerce platform from scratch with a "Do It Yourself" approach, enabling users to create their online stores within minutes without technical knowledge. This platform supports easy integration of various eCommerce features through a simple drag-and-drop interface.
- Played a critical role in assisting with architecture changes and feature additions, drawing on previous experience with similar challenges encountered both within the company and in the industry.
- Implemented various third-party APIs to meet complex software development requirements.

User Interface Developer

Bhoma Education Pvt. Ltd, New Delhi | Aug 2018 - Jan 2019

- Developed visually stunning and user-friendly responsive web designs for multiple websites, utilizing CSS3 and Bootstrap to ensure optimal viewing experience across devices.
- Demonstrated expertise in implementing, customizing, and seamlessly integrating eCommerce sites with Angular, delivering highly functional and intuitive online shopping experiences.
- Spearheaded the creation of reusable components, significantly reducing time-to-market for new features by leveraging existing code, resulting in faster project delivery and increased productivity
- Showcased design prowess by crafting an engaging and interactive landing page, incorporating cutting-edge technologies such as HTML, XHTML, and CSS, resulting in an impressive user score of 5.5/6 and driving enhanced user engagement.

PROJECTS

Platform.commerceup.io - Revolutionary E-commerce DIY Platform (MEAN Stack)

Led the Frontend development and launch of Commerceup.io, a groundbreaking Do-It-Yourself platform that revolutionizes e-commerce website creation. Empowered users with an intuitive and user-friendly interface to effortlessly build their own online stores, transforming entrepreneurial visions into reality. Implemented innovative features and streamlined processes, ensuring simplicity and efficiency throughout the platform. Successfully delivered a cutting-edge solution that enables individuals to establish their e-commerce presence with ease and effectiveness.

Commerceup.io - Angular-based E-commerce Platform Builder Website

- Led the frontend development and implementation of Platform.commerceup.io, a dynamic and innovative website showcasing Commerceup's capabilities as an exceptional e-commerce store builder.
- Utilized Angular framework to create a responsive and user-friendly online platform, rivalling industry giants such as Shopify and Magento.
- Implemented cutting-edge features and interactive elements to enhance user experience and drive engagement.
- Successfully positioned Commerceup as a competitive player in the e-commerce industry through the development of Platform.commerceup.io.

Adani One - Innovative Travel and Lifestyle Platform (React.js & .NET Framework)

- Led the frontend development of Adani One, a cutting-edge platform aimed at becoming India's premier destination for seamless travel and lifestyle experiences.
- Leveraged React.js and .NET Framework to build a highly responsive and user-friendly platform.
- Integrated airline ticket booking functionality, offering users a convenient and streamlined booking experience.
- Designed and implemented innovative features to enhance the platform's offerings and ensure unparalleled user satisfaction.

LuminousIndia - Progressive Web App (Angular 15 & .NET Framework)

- Developed LuminousIndia, a progressive web app (PWA) that showcases the power backup and residential solar products offered by Luminous Power Technologies, a reputable and reliable brand.
- Utilized Angular 15 and .NET technologies to build a robust and interactive web application.
- Implemented innovative features and user-friendly interfaces to enhance the user experience and promote engagement.

PokerJam - Multiplayer Poker Game App (Unity Engine, Angular, Node.js - Android & iOS)

- Led the dashboard admin panel development of PokerJam, a captivating multiplayer poker game app available on both Android and iOS platforms.
- Leveraged Unity, Angular, and Node.js to create an immersive and interactive gaming experience for users.
- Implemented real-time multiplayer functionality, allowing players to compete against each other in exciting poker matches.
