WORK EXPERIENCE

Consultant
Deloitte USI

04/2021 - Present   *Bangalore, India*
Product: Capstone
Roles & Responsibilites
- Implemented AutoRead of Policies and Quote documents helping user to AutoFill the forms which reduced 70% of manual error.
- Refactored majorly used Components with React Hooks and took the ownership as well.

Consultant
Allstate India

04/2020 - 03/2021   *Bangalore, India*
Roles & Responsilbilities
- Developed new functionalities and features inline with functional specialities and business requirements.
- Added GraphAPI configuration and integrated Office 365 in the application with same look and feel as of Outlook.
- Integrated third party PaymentAPIs to the application from the scratch and used Ajax and Redux calls for client side calls with proper actions.
- Took responsibility for the full cycle development, testing and CI/CD deployment using Jenkins Pipelines with DataBase modifications.
- Implemented Decorator Design Pattern for Backend and implemented FlyWay migration scripts.

Associate Consultant
Allstate India

05/2018 - 03/2020   *Bangalore, India*
Roles & Responsibilities
- Used Express.js for secure proxy fetchers and added authentication like JWT token and OAuth which provided more security.
- Developed and Executed test plans for complex features and wrote acceptance test and unit test using protractor as well as jest for UI.
- Implement RabbitMQ as a message broker for the application.
- Became Subject Matter Expert on many key features and gave sessions to my peer developers on Design patterns and D3.js.
- Developed Higher Order Components structure for the commonly usable Components.
