

SATTI LAKSHMAN SRI DURGA TEJA

Email: laksh manteja46@gmail.com

Contact: +91-9704171757

Summary

Senior professional in Infra development, Power app development, Power Platform, End-End reporting and data analysis with total experience of 7 years in:

Business Intelligence	Power BI	Excel	DevOps CI/CD
Data Analysis	Power App	SharePoint	Azure
End-End Report Management	Power Automate	Power Platform	PowerShell

- Advanced level proficiency in MS Excel including Vlookup, Power Query and Power Pivot.
- Created user friendly business apps as per the requirement of stake holders using power Apps.
- Created all different types of power automate flows for the automation of the processes.
- Proficient in setting up CI/CD pipelines using Azure DevOps for Power Platform solutions.
- Expertise in deploying Power Platform applications using Azure DevOps Release pipelines, ensuring smooth and consistent deployment across environments.
- Configure release gates and approval workflows to maintain control and compliance during deployment processes.
- Good knowledge of SharePoint, Power platform and Power BI Service.
- Ability to learn quickly and develop using new technologies.
- Design, develop, test, and deploy Power BI scripts and perform detailed analytics.

Technical Skills

Environments	Windows
Languages	M language, Power Fx, PowerShell,
Microsoft Technologies	Excel, Power BI, power app, power automate, SharePoint, SQL, Azure DevOps CI/CD
Database	SQL Server
Servers	SQL
Development Tools	SSMS
Management Tools	Azure devops
Domains	Manufacturing industries, Healthcare, IT

Professional Experience

Highly skilled and seasoned professional with over 7 years of experience in infrastructure development, Power App development, Power Platform, end-to-end reporting, and data analysis. Demonstrated expertise in designing, implementing and optimizing robust infrastructure solutions. Developing custom Power Apps and solutions on the Power Platform, and leveraging data analytics to drive informed decision-making

Cognizant Technology solutions
Dr. Reddy's laboratories (Sodexo)
Dr. Reddy's laboratories (Nalanda)
Pennar industries Pvt. Ltd

Duration: Dec 2021- Apr 2024
Duration: Mar 2021– Dec 2021
Duration: Aug 2020 – Mar 2021
Duration: Jan 2017 – Aug 2020

Cognizant Technology Solutions**Duration: Jun 2022 – Apr 2024**

Project	Centrica	Duration: Jun 2022 – Apr 2024
Summary	Utilized Azure DevOps pipelines to automate the deployment process and created user friendly business App for the purchase team using the power Apps.	
Technologies	Excel, power BI, Power Apps, azure DevOps CI/CD, PowerShell	
Responsibilities	<ul style="list-style-type: none">• Developed the power apps as per the client requirements.• working with a team with direct and indirect reports• collaborating closely with Business Unit Management, Director Executives, Managers, and the IT core team.• In my role, I am accountable for end-to-end cloud development solutions• working with a team with direct and indirect reports• Automated Deployment: Utilize Azure DevOps pipelines to automate the deployment process of Power Platform applications, ensuring consistency and efficiency in deploying updates and changes across different environments.• Continuous Integration/Continuous Deployment (CI/CD): Implement CI/CD pipelines in Azure DevOps to automate the build, test, and deployment processes of Power Platform solutions, enabling rapid iteration and delivery of features• Worked with the integration of the company's Legacy systems to achieve modern project reporting through advanced visualization tools, leveraging full Power Platforms and Microsoft Suites Solutions.• Additionally, I translate business requirements into clear and concise technical documentation, facilitating the development of BI projects that support data-driven decision-making to achieve company objectives.	

Project	Kaiser	Duration: Dec 2021 – May 2022
Summary	Worked on the Healthcare Revenue Cycle Management by maintaining the Power BI reports, Power Apps, Power Automate, SSRS and Power BI Paginated Report.	
Technologies	Power BI, Power apps, Power Automate, Share Point,	
Responsibilities	<ul style="list-style-type: none">• Worked as senior software developer and following the agile method of development.• Created Stored procedure and Logics as per the requirement using SQL.• Made enhancements to the existing Power BI, Power apps and SSRS reports on the request of users.• Attended the client interactions on daily bases regarding the projects and there refinement.• Generated reports, dashboards, graphs and visualizations with insights and easy to understand format.• Created canvas power app for the use cases like data entry, Auditing etc.• Evaluated and made enhancement to existing BI systems.	

Dr.Reddy's laboratories (Sodexo & Nalanda)**Duration: Aug 2020 – Dec 2021**

Project	Onboarding Tool (Sodexo)	Duration: Mar 2021 – Dec 2021
Summary	onboarding process is a tool build for automating manual tracking / follow up required for onboarding process. Which spreads across multiple excel sheet/Emails/stakeholders and placing all content on SharePoint online as database and power platform for UI and Automation.	
Technologies	Power BI, Power apps, Power Automate, Share Point,	
Responsibilities	<ul style="list-style-type: none">•Understanding the scope and objective of the tool.•Created Canvas app by using Excel, SharePoint and Power Automate based on customer requirement.•Worked on screens, collections, galleries, forms, grids, variables.•Worked on one drive for to store documents with respect to canvas application.•Created flows as per the requirement of management.• Creating intuitive and visually appealing user interfaces using Power Apps, incorporating responsive design principles for optimal user experience across devices.•Knowledge of implementing security measures and governance policies within Power Apps, ensuring data privacy, access controls, and compliance with organizational policies and regulations.	
Project	Engagement Tracker (Nalanda)	Duration: Aug 2020 – Mar 2021
Summary	The Talent Pool Engagement tracker tool is to track the daily engagements of CTS tagged under Talent Pool. This tool captures the daily activities adjusted with work hours, which helps the user to log all the tasks performed in a day. By entering the work entries, the tool calculates the time logged and it facilitates adding multiple tasks done on the day to ensure 8 hours of work are filled.	
Technologies	Power apps, Power Automate, Share Point, SQL	
Responsibilities	<ul style="list-style-type: none">• Created Canvas app by using SharePoint and transfer data to SQL Server using Power Automate.• Understanding the requirement and carrying out the required customization.• Worked on screens, collections, forms, variables.• Worked on outlook for email information.	

Pennar Industries Pvt. Ltd.**Duration: Jan2017 – Aug 2020**

Project	Raw materials data analysis	Duration: Jan 2017 – Aug 2020
Summary	Converted raw data into meaningful insights through interactive and easy-to-understand dashboards and reports as per the requirement of management and Clients.	
Technologies	Excel, Powerbi	

Responsibilities	<ul style="list-style-type: none">•Analyzed the requirements and discussed with managers and leads on the functionality.•Extracted data from different kind of source systems into Power query and then cleansing the data by applying business rules and loading it into Power Pivot.•Build the relationships between the various dimension and fact tables in power pivot.•Created calculated measures and columns with DAX in Power Pivot.•Developed custom report tool tips for different reports to showcase the multiple data points in one report.•Used Selection, bookmarks and buttons for an app experience in dashboards to the end users.•Used negative query and query folding for the better performance of power BI.•Implemented Role Based and Row Level Security as part of security in Power BI.•Published reports into Power BI publisher and schedule the data sets.•Implemented Role Based and Row Level Security as part of security in Power B.I•Given presentations for higher management for weekly, monthly and yearly.•Worked closely with the clients for their business requirements and needs.
