Programming Skills : C#, ASP.Net, MVC, Web Api , REST Api, JQuery, JavaScript, Angular JS,  
LINQ, Elastic Serch ,Azure DevOps Server

RDBMS : SQL Server 2008, MySql, SQLite

.Net Framework : Entity Framework, MVC, Hibernate

## PROJECT DETAILS

**Name** : Campus Nexus  
**Role** : Software Developer **Duration** : March. 2018 - Present date  
**Tools** : C#, Angular Js, Typescript, SQL Server 2008 **Team Size** : 8-10

**Description:** It's a student management information system handling student curriculum. Currently clients have the desktop based application developed using Visual Basics 6.0, wanted to migrate it with web based application with the help of Service-Oriented Architecture (SOA).

Campus Vue Management is a product for a US based University basically for students, faculty, and administrators as their online gateway to academics, career placement, office applications, and more. Easily integrated with Campus Vue Student, Campus Vue Portal brings the campus experience online to serve applicants, students, staff, employers, and alumni anywhere in the world.

This is a portal which is built in Agile Methodology using SOA architecture & J-query. Students, staff, employers all can login and access all their details. Admin can assign the courses for a specific class, instructors can also be assigned to a section, and all the personal details with the details can be maintained in it.

### Responsibilities:

- Understanding of all existing Application.
- Handling the coding of various UI screens
- Developing Unit Test using MOQ
- Developing Integration Test

## PROJECT DETAILS

### PROJECT #1:

**Title** : Evaluator  
**Platform** : JAVA **Duration** : 1 Month  
**Description** : Evaluator includes facilities of registration, search, modification, deletion of student information like marks, names and roll numbers. This software searches the student information on the basis of roll number which is stored in the record.

### PROJECT #2:

**Title** : Task Management  
**Platform** : MS.NET **Duration** : 1 Month

**Description** : Task Management is a Desktop based software. The main goal of task Management is to be good scheduler, where a user can easily provide task and it can display it to the screen and users can set reminder too. It will be a good scheduler tool.

### PROJECT #3:

**Title** : SpeakMyWord  
**Platform** : Android Programming **Duration** : 10 Months  
**Description** : We developed an Android application for blind peoples who can't see or read anything. By using this application, the camera scans the text and plays it in audio format so that they can listen to it and understand the text.

## PERSONAL PROFILE

- Name : Umesh Deepak Waghmare
- Nationality : Indian
- Languages Known : English, Hindi, Marathi
- Date of Birth : 7 April 1996
- Gender/Marital Status : Male / Single
- PAN No. : ADIPW4546J
- Passport No. : T4695501
- Permanent Address : 1,Phule Colony,Khokadpura,Aurangabad-431001.

Declaration:

I hereby declare that above information is correct to the best of my knowledge and belief.
