Personal Summary

An accomplished and innovative Python and PHP developer with a wealth of experience in MVC (Model-View-Controller) and MVT (Model-View-Template) design patterns. Specializing in Rest API development, with a focus on Django and CodeIgniter frameworks, I bring extensive expertise in crafting robust and scalable websites. Proficient in Python, PHP, JavaScript, Ajax, and MySQL databases. Eager to contribute my skills and knowledge to a dynamic and ambitious company in a challenging developer role.

Professional Summary

- Developing advanced database driven websites & systems including ecommerce.
- Proficient in back-end development and maintenance of websites, utilizing PYTHON and PHP programming languages, along with Rest API and MySQL database.
- Experienced in implementing MVC (Model-View-Controller) and MVT (Model-View-Template) design patterns for effective and organized development.
- Front-end development and maintenance of websites using JavaScript and HTML.

Skills

Programming Skills: Python, Php, Django, Rest Api, Ajax, JavaScript, JQuery

Cloud Technology: Azure, Azure DevOps

Version Control Tools: Git

Web Technologies: HTML5, CSS, Bootstrap

Databases: MySQL, Postgresql

IDE: Sublime Text, Pycharm, Php Storm, Visual Studio Code

Operating Systems: Windows OS

Projects Worked On

- **Express Yard(Wabtec)**

Role : Software Developer

Responsibilities:

1. Implemented New Business logic.
2. Development Of Modules According To Client Requirement.
3. Development of Rest API.
4. Modification to Existing Application As Per Requirement.
5. Debugging and Maintaining the application.
6. Involved in sprint planning.

Environment and Skills used:

Python, Django, Postgresql, Ajax, Java Script, Rest API, Css

- **Detailed Assessment(Educational Initiatives)**

Role : Software Developer

Responsibilities:

1. Implemented New Business logic.
2. Provided Support for Existing System (Ticketing System).
3. Development Of Modules According To Client Requirement.
4. Modification to Existing Application As Per Requirement.
5. Development of Rest API.
6. Debugging and Maintaining the application.
7. Involved in implementing test plans.

Environment and Skills used:

Python, Postgresql, Ajax, Java Script, Rest API, Css, Html

- **Tickdial**

Role : Web Developer.

Responsibilities:

1. Implemented Business logic based on the requirements.
2. Development / Coding of modules based on the Design and requirements specification
3. Prepared the Unit Test plan
4. Zoho Mail Creation.
5. Deployment In Production Server (Cpanel)

Environment and Skills used:

Python, Rest Api, JQuery, Ajax, HTML, Java Script, MySql

- **Loomsandhomeskerala**

Role : Web Developer.

Responsibilities:

1. Implemented Business logic based on the requirements.
2. Development / Coding of modules based on the Design and requirements specification.
3. Prepared the Unit Test plan and Results
4. Implemented e-commerce web application.
5. Deployment In Production Server (Cpanel)

Environment and Skills used:

Core Php, JQuery, Ajax, HTML, Java Script, Bootstrap, CSS, MySql

Education

- B-Tech (Computer Science & Engineering) CUSAT University, 2015
- Diploma (Computer Engineering) Board of Technical Education Kerala, 2011
- Technical Higher Secondary School Leaving Certificate (10th), 2008
