AKASH THUBRIKAR

ZS Associates (Python Developer)

@ akashthubrikar8@gmail.com   📞 +91 7249661559   📍 Pune, India

SUMMARY

A challenging career as Web Developer where my Python Developer / Django REST Backend Web Development skills can be effectively used and upgraded. Web Developer with strong Statistics and Mathematics background, Data Processing, and Data Mining Algorithms to solve challenging business problems. Involved in Python Open Sub community and passionate about Deep Reinforcement Learning

EXPERIENCE

CLIENT : SOLYTICS PARTNER | Pune

PYTHON DEVELOPER

📅 Feb 2022 – Present

SAMS is the next- generation, integrated solution for all sanction, watch list, PEP and adverse media screening requirements. Augmented by proprietary ML/AL algorithm, powered by a comprehensive database, and equipped with a fully- automated near real time data collection process, SAMS avoids human error and delivery significance cost efficiency by reducing false positive

- Developed Rest API's using Python with Django REST Framework.
- Designing Schema for Database
- Expertise in OOP's Object-Oriented Programming like Python
- Resolved technical issues by debugging and support coding and testing functions
- Develop and deliver customized data solutions

CLIENT : HOME DEPOT | Pune

PYTHON DATA SCIENCE

📅 Dec 2020 – Feb 2022

ECommerce Products analytics is the process of gathering data from all areas that have an impact on user online store and using this information to understand the trends and the shift in consumers' behavior to make data-driven decisions that will drive more online sales. Price and stock information about business competitors and where Business are positioned against them price-wise is a very important data point user need to consider if user want to compete in the e-commerce space.

Important Modules :

- Sales Analytics
- Customer Behaviour Analytics
- Marketing Performance analysis
- Product analytics
- Analyzing trends and patterns to provide insights.
