## 📁 Professional Experience

### Fibe (Formerly Early Salary) ✍

Senior Software Engineer

Aug 2021 – present | Pune

#### Customer Acquisition Portal:

- Building the rich interactive **conversational UI** from scratch following **clean coding** practice & adhering to the **DRY**(Don't repeat yourself) principle, delivering **bug-free production-grade** code.
- Architected **user flows from signup** to fully automated **KYC** process, with prefetching of data from the uploaded IDs and reliability scoring system for the KYC docs.
- Significantly improved the overall user onboarding experience and **reduced dropout rate by 60%**.
- Hands-on experience in working with micro-frontends (mfes).

#### Fibe. in (core website):

- Improvise **core web vitals scores to 95-98%** on the website **enhancing the performance** to create a smooth UX for the user and to boost SEO traffic.
- Accelerated development of **Gpay's spot journey** which made a business of **200Cr.**
- Built **10+ responsive landing pages** in React for **Gpay, Flipkart**, and all other co-brandings & tie-ups with Fibe.

#### Moneytor (Loan Management & Collections App):

- Revamped Moneytor, an app for collecting the loans disbursed.
- Streamlined around **15+ Rest APIs built with NodeJS** with no data exposure which makes it one of the secured finance apps.
- Integrated React with Angular** for an existing Angular project which allowed us to build new features on React.

#### Fibe UI(Component Library):

- Created component library with **customizable and reusable** components, enabling **quick bootstrapping** of all new projects.
- Published the same as the **Private NPM package**.
- Developed **30+** pixel-perfect components needed for multiple apps with **theme-changeable features** according to the app.

### neoG.camp

Mentor/ Full Stack Developer

Nov 2020 – Dec 2021 | Remote

- Part of Tanay Pratap's NeoGCamp, Full-Stack Web Development Cohort.
- Developed **Learner's Management** System & **Reviewer's Management** System.
- Mentored** learners as part of the cohort.
- Had designed, developed, and tested **5 e-2-e full-stack** projects and made own version of the **CSS Component Library**.

### Tata Consultancy Services

Software Developer

Jun 2017 – Jul 2019 | Chennai

#### Citi Bank – North America

- Designed and created a high-performance **interactive user interface** for Citi's Fusion Merchant sites using React Js, SCSS, and Material UI components
- Implemented automated alerts, leading to an **85% reduction in error** support tickets.
- Built **~15** internal Splunk and app-dynamics dashboards to apply predictive analytics.
