EDUCATION

- **B.Tech/B.E.**
(Electronics/Telecommunication)
Savitribai Phule University
(2019)

CORE COMPETENCIES

- Software Development Lifecycle
- Requirement Gathering
- Project Management
- Risk Management
- Programming
- Front-end development
- Agile Methodologies

SOFT SKILLS

- Communication
- Problem - solving
- Dynamic
- Interpersonal skills

TECHNICAL SKILLS

React JS, CSS, HTML, React Native
JavaScript, Flutter
TypeScript, Dart

PERSONAL INFORMATION

DOB: 24th April 1995
Languages: English, Hindi & Marathi
Address: Pune – 411060, India

Result – oriented professional utilizing nearly 4 years of expertise in React Js, React Native, Flutter, JavaScript, TypeScript, and Dart to pursuing to excel in a dynamic role of front-end developer or React JS Professional within an innovative company, driving impactful projects forward solutions.

Preferred Location – Pune

PROFILE SUMMARY

- Worked as a Software Engineer at VAST, actively contributed to the development and improvement projects based on **React Js Web development**.
- Excel in React Js, React Native, Flutter, JavaScript, TypeScript, and Dart, ensuring project milestones and deliverables are met with precision and expertise.
- Implemented innovative strategies resulting in a significant boost in project efficiency, driving impactful outcomes for the team.
- Proficient in leveraging Agile methodologies and user experience design principles to drive efficient project delivery and enhance client satisfaction.
- Provided insightful knowledge of business process analysis (As-Is, To-Be) and design; managed application based process re-engineering, process optimization, cost control & revenue maximization from technical solutions using cutting-edge technologies.

PROFESSIONAL EXPERIENCE

Software Engineer

Dec'21 – Mar'24

Valueadd Softtech & Systems (VAST)

Key Result Areas:

- Designed responsive web and mobile UIs for safety and society management apps, in **React Js Web Development with JavaScript and TypeScript**.
- Integrated Firebase authentication and push notifications to heighten security and enhance user engagement in Android and iOS applications.
- Managed project timelines, resources, and deliverables to meet and exceed client expectations.
- Implemented best practices in software development to optimize project efficiency and quality.
- Led client meetings for requirement gathering, analysis, and project execution.
- Liaised with internal/external clients to determine specific requirements and expectations; managed client expectations as an indicator of quality.
- Created & managed the estimates, project plan, project schedule, resource allocation and expenses to ensure that targets were reached.

React Native Developer

Mar'20 – Dec'21

VRLAB Technologies

Key Result Areas:

- Led the creation of responsive Android and iOS UIs for Sicca, an irrigation control app, leveraging **React Js** and React Native. Integrated Firebase authentication and push notifications to bolster security and user engagement.
- Played a key role in the enhancement of Fleetos, a fleet management app, by developing responsive Android and iOS UIs. Utilized technologies such as React Hooks, Redux, and API integration. Implemented themed design elements and crafted a bidding system tailored for transporters.
- Resolved technical issues and bugs to optimize application performance and user satisfaction.
- Participated in the full software development lifecycle, from concept to deployment.
- Communicated with clients to understand requirements and provide technical solutions.
- Followed the project life cycle methodology defined under the process framework; ensured that customer deadlines were met within project budgets.
