## WORK EXPERIENCE

### Software Engineer

#### Fexle Services Private Limited

06/2018 - Present

Jaipur

- 2+ years of experience developing a Quote-to-Cash application, including CPQ and Contract Management with proficiency in Salesforce CPQ.
- Expert in SteelBrick CPQ customisation, product configuration, product rule, price rule, CPQ plugins, Quote templates & documentation.
- Create and manage custom objects, fields, formulas, validation rules and approval processes.
- Create custom controllers implementing complex code for retrieval from Salesforce to VISUALFORCE pages.
- Use SOQL and SOSL for Data manipulation needs of the application using platform Database Objects.
- Work on the Apex Trigger, VF pages, lightning component and asynchronous apex.
- Perform data migration into Salesforce application using apex data loader through CSV files.
- Work on aura framework, Lightning Components and Salesforce Lightning Design System(SLDS).
- Use ANT tool and Change Set to migrate from Dev to QA.

## PROJECTS

### Tradeshift CPQ

- Tradeshift is a cloud based business network and platform for supply chain payments, marketplaces, and apps.
- On this project, worked as a Salesforce Developer to implement SteelBrick CPQ and customise according to business requirement.

### Vistra CPQ

- Vistra is a global provider of administrative, management and real estate services. Basically they provide services in 5 sectors like Corporate, Private Equity, Real Estate, Capital Markets, Private Wealth.
- In this project I work on the merging of two different salesforce instances and implement the SteelBrick CPQ as per sector.

### Metadata Cloning

- In this project, worked on the Managed Package Metadata to clone using Metadata API to retrieve and deploy. Also worked on the creation and modification of the package file.
