Work History

Systems Engineer , 11/2018 to Current

Infosys Limited – Bengaluru , Karnataka

Project Name - **Cisco UCSD**

- Automate various features of web application with more efficiency and optimized way.
- I'm also responsible for continuous integration of the testcases automated and also write the test scripts and generate new features for automation.
- Debug the vulnerabilities and maintain the continuous deployment of the web applications with latest builds and also involves in QA process.

Research Work

Inventory Object Collection of KVM from Windows

My research on KVM Inventory Object collection and API connection from Windows platform which is not documented even by RHEV KVM. While RHEV KVM is majorly used on Linux platforms, my research opens the gate to work on Windows also. This became a huge turn over for our project to give the best results for the client. And I was also awarded with Infosys Insta Award for Excellence in this research work.

Education

Bachelor of Technology : Electronics And Communications Engineering , 06/2018

Lingayas Vidyapeeth – Faridabad, Haryana
- Graduated with 8.53 GPA

Accomplishments

- Insta Award of Excellence for my research on KVM Automation on Windows platform
- Awarded Best Student of the Year -2018
- Awarded Best All-Rounder of the Year – 2018
- Two time project nomination in Faridabad Industries Association
- Published a review paper on Mobile Cloud Computing on IJSER
- Organized National Conference on Electronics and Telecommunication Design
- Best Dance Crew and Winner of Basketball tournaments under my leadership

Declaration

I hereby declare that the above details are true to my knowledge
