SUMMARY

I possess around three years of professional experience as an ERP consultant, during which I had the opportunity to collaborate with esteemed global banks such as the Central Bank of Somalia, Ziraat Bank, and Bank of Kathmandu. My expertise encompasses a wide range of modules within HCM, SCM, and ERP, both for in-house operations and client projects.

Throughout my tenure, I have acquired extensive proficiency in various essential tools and technologies, including Oracle Reports, SQL, PL/SQL, BI Publisher, XML Publisher, OTBI Reports, Oracle Database, Oracle Fusion, Workflow Management, etc. These skills have equipped me with the ability to effectively develop and implement robust solutions for diverse business requirements.

EXPERIENCE

Profinch Solution Pvt. Ltd

ERP/EBS Consultant: Dec 2020-Present

- Worked on Oracle RICE (Reports, Interfaces, Conversions, and Extensions) for clients, CBS bank and Ziraat banks, with a focus on HRMS core HR & Payroll modules.
- Utilized XML and BI-Publisher for developing reports and worked on Forms Personalization.
- Developed GL-Interface, involving the creation of Control file, Data Files, Staging Tables, and PL/SQL Procedures for data validation and import into base tables.
- Received Fusion Training on OTBI, BIP, Extracts, HDL, OIC and Fast Formulas.
- Worked on File Based Data Import (FBDI).
- Worked on SOA Integrated Gateway using REST API & JSON Payload.
- Designed and implemented Workflow Alert notifications.
- Conducted comprehensive demonstrations of EBS (Oracle E-Business Suite) navigation for Inventory and Purchasing functionalities during client meetings.
- Engaged in both technical and functional analysis tasks.
- Participated in requirement gatherings for the Fleet Management System.

Neptunus Power Plant Services Pvt. Ltd.

Management Trainee/Business Analyst: Jun 2020-Dec 2020

- Understanding the business process, sales, marketing, and IT.
- Engaging with respective stakeholders to gather their perspectives on system automation challenges.
- Implementing solutions for business process automation.
- Conducting research on potential opportunities for cloud-based integration
