Personal Profile:

I am currently working in Crisium Technologies Pvt.Ltd. as a salesforce developer, having 3.5+ years of experience in salesforce ecosystem.

Technical Skills:

INDUSTRY EXPERIENCE	SKILLS
• Life Science	**Salesforce:** Apex, Triggers, Unit Testing, Lightning Components, Classic and lightning Configurations, Lightning web components, Communities, Asynchronous apex **Web:** HTML, CSS, Java Script **Database:** SOQL

Projects Summary:

1.Community Cloud Implementations:

Roles & Responsibilities:

- Configuring all kinds of setups like administration, community builder and community page settings
- Implementing lightning components and LWC
- Handled End to End release activities including the change set creation, deployment, pre and post deployment activities, relevant communications etc.

2.Classic to Lightning Migration:

Roles & Responsibilities:

- Upgraded some Apps from Salesforce Classic to Lightning Experience to develop rich user interface and better interaction of pages.
- Created multiple Lightning Components, added CSS and Design Parameters that makes the Lightning component look and feel better.
- Leveraged APEX Controller to make a call for external requests to retrieve data from various API's and display them on to the component.

- Minimized code in JavaScript Controllers by adding reusable functions in Helper Component.
- Updated the APEX Controller and Helper functions regularly making the Component Context -Aware as per business requirement.
- Tested apps by appending multiple components to a Lightning Application thereby deployed Applications from Sandbox to Production.
- Used SOQL and SOSL statements within Governor Limits for data manipulation needs of the application using platform database objects.
- Built Lightning Component Tab for Salesforce 1 Navigation and Custom Applications in Lightning Experience.
- Involved in daily stand-up meetings, Scrum. This resulted to bring good solution to the business requirements
