# CHINMAYA MOHANTY

Tech Savvy professional with expertise in Front-End Development/ UI Development with a zeal to make a winning career in an organization of high repute across IT Sector.

📱 +91 9937927594

✉ mohantychinmay74@gmail.com

## ⚙ CORE COMPETENCIES

- Frontend Optimization
- Browser Compatibility Testing
- User Interface Optimization
- Wireframe Translation
- Web Performance Tuning
- Agile & Scrum Methodology
- Code Splitting
- Project Execution
- Technical Reporting

## ≣ IT SKILLS

## 👤 PROFILE SUMMARY

- Excelled for **more than 4 years in Frontend Development & UI Development** in the technology industry, focusing on crafting adaptable and intuitive websites.
- Proficient in **utilizing HTML, Angular and Agile Development** methodologies to create dynamic and interactive web applications, enhancing user engagement and satisfaction through innovative solutions.
- Skilled in **translating design mockups and wireframes** into high-quality code, delivering visually appealing and intuitive interfaces.
- **Capability to interface with clients, suggest viable software solutions**, cultivate relations with them for securing repeat business and ensuring quality delivery of products to the clients.
- Proficient **in SDLC methodologies; coded application in an Agile environment** utilizing a test-driven development approach.
- Expertly **managed data from APIs**, created impactful solutions to real-world problems and added value to customers and companies.
- Excellent skills in **gathering product specifications & designing, upgrading existing designs using specialized software**; conceptualized innovations for product value addition, cost innovations and resource management.
- Successfully **executed responsive design strategies** to ensure a seamless user experience across diverse devices and screen sizes.
- **Extensively collaborated with backend developers, designers, and stakeholders** to seamlessly integrate frontend and backend components.

## 🎓 EDUCATION

| | | |
|---|---|---|
| 2019 | ● **MCA** | Berhampur University, Odisha |
| 2017 | ● **BCA** | Bhadrak Autonomous College, Odisha |

## 💼 WORK EXPERIENCE

**UI Developer**

**NSR Information Systems India Pvt. Ltd., Hyderabad**          **Aug'23- Present**

**Key Result Areas:**

- Spearheading the conversion of design wireframes into top-notch code, while upholding UI/UX design principles and industry best practices.
- Optimizing website performance and cross-browser compatibility to ensure a smooth and engaging user experience.
- Refactoring legacy codes for improving maintainability without affecting existing features.
- Working with other JavaScript Developers & Software Engineers to develop front-end & back-end architecture that's well-structured and flexible, along with APIs to support it.
- Translating design concepts into impactful solutions, contributing to the success of tech products and businesses.
- Creating web interfaces using HTML5, CSS3, and JavaScript to ensure responsiveness and user-friendliness across various devices and screen sizes.
- Executing new front-end architecture, improving website loading speed & enhancing overall user experience and satisfaction.
- Conducting thorough testing & debugging of web applications to identify & resolve issues.
- Implementing best practices for front-end performance optimization to enhance website speed and responsiveness.

## ⚙ SOFT SKILLS

- Communicatior
- Collaborator
- Continuous Learner
- Decision Maker
- Planner
- Crtitical Thinker

**UI Developer Softek India, Pvt. Ltd. | Sept'22- Aug'23**

**UI Developer | Mouri Tech Pvt. Ltd. | Apr'21- Aug'22**

**UI Developer |Adret Infotech Pvt. Ltd. | Feb'19- Mar'21**

## 📇 PERSONAL DETAILS

**Languages Known:** English, Hindi & Odia
**Address:** Bengaluru

## 🖥 PROJECTS

### NSR Information Systems                                    Aug'23- Feb'24

**Client:** Stellantis

**Project Description:** Stellantis is a global automotive conglomerate specializing in the creation, development, production, and distribution of vehicles under various renowned brands such as Abarth, Alfa Romeo, Chrysler, DS, Fiat, Lancia, Vauxhall, Jeep, Fiat Professional, Opel, Peugeot, Ram, and more.

**Responsibilities:**

- Developed responsive and user-friendly web interfaces by employing HTML5, CSS3, Bootstrap4, and JavaScript, ensuring compatibility across different browsers and achieving optimal performance.
- Employed frontend frameworks and libraries, such as Angular8, to create dynamic and interactive web applications.
- Utilized SCSS and CSS preprocessors to streamline CSS development processes and improve maintainability.
- Implemented version control using Git and collaborated with cross-functional teams via GitLab, facilitating seamless code management and collaboration.
- Actively participated in Agile methodologies, including daily stand-ups, sprint planning, and retrospectives, to ensure project progression and timely delivery.
- Engaged in close collaboration with product managers and stakeholders to grasp requirements and offer technical expertise throughout the development lifecycle.

### Softtek                                                   Sept'22-Jul'23

**Client:** 24 Hour Fitness

**Project Description:** 24 Hour Fitness operates an extensive network of more than 275 clubs spanning across three states in the USA. Our facilities provide a diverse range of equipment for strength, cardio, and functional training, along with a comprehensive selection of group fitness classes, personal training sessions, and virtual training options. Additionally, we offer digital services through our innovative 24GO® app, catering to the evolving fitness needs of our members.

**Responsibilities:**

- Collaborate with stakeholders, product managers, and UX designers to understand requirements and create visually appealing and user-friendly interfaces for the web or mobile application.
- Implement the UI designs using web technologies such as HTML5, CSS3, SCSS, Bootstrap4 and JavaScript. Ensure cross-browser compatibility and responsiveness of the application.
- Proficiency in using front-end frameworks like Angular6 to build dynamic and interactive user interfaces.
- Optimize the UI for speed and performance, ensuring a smooth user experience even on low-bandwidth connections or less powerful devices.
- Work closely with back-end developers, UX designers, and other team members to ensure seamless integration of UI components with the application's functionality.
- Conduct thorough testing of the UI components to identify and fix any bugs or issues. Collaborate with quality assurance teams to ensure a high-quality product. Create responsive layouts that adapt to various screen sizes and devices, providing a consistent experience across different platforms.

### Mouri Tech                                                May'21- Aug'22

**Client:** Mellow Store Front

### Adret InfoTech                                            Apr'19- Mar'21

**Client:** Salon Home
