Excellent knowledge of developing applications using cutting-edge diverse technologies. Possesses excellent coding, problem-solving, and team management skills. Experience in using Agile, SCRUM, and Waterfall methodology to deliver the projects. Technology enthusiast always busy with learning new things.

EXPERIENCE

MKCL | Pune, Maharashtra | October 2012 – Present

Tech Lead | Senior Software Developer

Here at MKCL, I have completed a journey from Trainee Engineer to Tech. Lead. During this tenure, I worked on various eLearning, eGovernance, and process automation products.

- **Core Studio** (Serverless Server) provides a set of fully managed services that you can use to build and run serverless applications. Serverless applications don't require provisioning, maintaining, and administering servers for backend components such as compute, databases, storage, stream processing, message queueing, and more. You also no longer need to worry about ensuring application fault tolerance and availability. Instead, CoreStudio handles all of these capabilities for you. This allows you to focus on product innovation while enjoying faster time-to-market.
  Tech Lead | Golang, Vue.js, MongoDB, MySQL, FDB

- **Application Studio** *is a web-based RAD tool for software development. This facilitates Rapidly design, build, deploy, and manage enterprise apps, all within one seamless web environment.*
  Tech Lead | Golang, Vue.js, MongoDB, MySQL, FDB

- **Work-based Learning Framework** a software framework for seamless management of life-cycles of students pursuing workbased learning courses.
  Team Lead | Golang, Vue.js, MongoDB, MySQL, FDB

- **ERA** is an eLearning framework with assignment management and online examination system. Application is responsible for learning by learners and configurations driven by course admins over a large scale of network. Approx. 11 lakh learners learn per year through this platform.
  Sr. Software Developer | Golang, Vue.js, MongoDB, MySQL, FDB

- **Digital University Framework** a software framework for seamless management of life-cycles of millions of students, thousands of institutions and tens of thousands of courses and credits. Under Digital University and Digital College software frameworks, MKCL now offers direct student facilitation services to 18+ universities, 6000+ colleges and study centers and 2 million+ students every year.
  Software Developer | Node.js, Vue.js, Java, Spring MVC, Spring Batch, Hibernate, MongoDB, MySQL

GCCS| Pune, Maharashtra | 2009 - 2012

Lecturer | Software Trainer

- Conducting online & offline training sessions of software and programming for undergraduate and post-graduate courses.
- Designing digital course contents & study material. ⨯ Creating online and offline assessments.
- Progress monitoring & learning support to learners.
- Managing Examination event as per internal and affiliated university patterns.
