<https://www.linkedin.com/in/ramakant-sul-9940b678/>

Summary

Ramakant is a dynamic Information Technology professional with a passion for Salesforce suite of solutions and the wider CRM-digital technology domain. He brings 5 years of entire experience dedicated to Salesforce projects, performing analyst, designer, developer and testing roles. He brings a wide range of experience across the SDLC managing analysis, design, development, deployment, integration, documentation and support activities. He has successfully executed projects for well-known global organization and gained valuable product based, insurance, agriculture and Advertising industries. His work majorly with USA, UK based clients.

He brings excellent track record of implementing solutions involving functional complexity, time constraints and innovation. He has worked on several Scrum projects and is at ease in an agile environment. He considers himself a problem solver and Team Player looking for technically exciting environments where emerging technologies can make a positive impact.

- Deployment Using Ant Based Tools and Git.

Developer**Project:** Darta Savings Life Assurance**Technology:** Salesforce Sales cloud, Apex, Visualforce, SOQL, Rest API Integration

Darta Saving Life Assurance Ltd is a 100% owned subsidiary of Allianz SpA of Italy and a part of the worldwide Allianz Group. Darta was founded in 2003 and is an Irish based life assurance company focused on providing innovative saving and investment products to customers in the Italian market as well as specially tailored services to High Net Worth customers.

Currently, Darta doesn't have standard CRM, this is essential for them as they have ambitious plans to grow their business over the next 5 years. These plans include expansion to non-Italian markets/customers, launch of new products and expansion of the sales distribution partner network from 2 to upwards of 10 distributors. The automation of the DARTA Saving business processes to enable rapid business scalability is vital for business expansion

Contribution

- Basic Account management, Basic case management
- Outlook connector set up, Configuration - Workflows
- Limited integrations and customizations (1 integration – policy data batch file, 3 customizations for SLA calculations), Email-To-Case Functionality, Service Console, Visualforce Pages, Triggers, Apex Classes
