ASHWINI SABALE

Mob: +91 9322533482
Email:ashwinighadge2025@gmail.com

.
- **3.1 years** of proven experience in **Manual Testing, Functional Testing, Non-functional Testing, UI Testing, Database Testing, Automation Testing, Core Java concepts, Selenium Web Driver with Java, API Testing and Web service testing using SOAP UI Tool** and **POSTMAN .**

- I am looking forward to work in an organization, which provides the environment for growth with competent and strong leaders in Manual and Automation Testing. I have an urge and inclination for learning new technologies, a strong work ethic combined with a commitment to excellence in all projects undertaken.

TECHNICAL SKILLS

Test Management Tool	**:** JIRA**,** HP ALM (HP QC)
Defect Tracking Tools	: JIRA
Languages	**:** Java, SQL
Data Base	**:** SQL server, MYSQL
Markup Languages	**:** HTML, XML, JSON
Tools Used	**:** Selenium, TestNG, Maven, Postman, SoapUI**,** RestAssured, GitHub, Jenkins for CI/CD, Browser Stack, Eclipse IDE, Cucumber.

PROFESSIONAL / EDUCATIONAL QUALIFICATION

- **Bachelor Of Computer Science** (**First Class**) from **Pune University, Pune Maharashtra.**
- I have completed CertiProf's **Scrum Foundation Professional Cerificate** (Certificate Id-80111362)

PROFESSIONAL SUMMARY

- **3.1 years** of **software testing experience,** with specialization in the **retail and insurance domain.**

- Proficient as a **Test Engineer** in **Automation Testing, Core Java Concepts, Selenium Webdriver with Java, API Testing** using **POSTMAN and RestAssure, Functional Testing, Non-Functional Testing, UI Testing and Database Testing**.

- Experience in **analyzing business specification documents**, **Identifying Test Scenarios**, **designing Test Cases, Executing Test Cases.**

- Thoroughly involved in different types of testing's like **Sanity, GUI, Functional Testing, Re-Testing, Regression Testing, Database Testing using SQL, Browser Compatibility Testing Using Browser Stack, Globalization Testing.**

- Proficiency with tools for tracking bugs and defects, such as **JIRA.**

- Experience in the entire **Software Development Lifecycle(SDLC)** and **Software Testing Life cycle(STLC)** from requirement gathering to releasing to production.

- Participated in test case **review** and sent review comment to team member.

- Prepared **Traceability Matrix** to map **User Stories** and **Test case**.

- Worked On **Agile Methodology** and participated in **Scrum meetings**.

- Prepared weekly status **report** using **pivot chart** and send to higher authority.

- Involved in **Production Issue**.

- Extensive experience in developing **SQL** Scripts to validate the databases tables and reports data for database testing using **DML, DDL and DQL commands.**

- Performed **API Tesing** with **Rest Assured and Postman**.

- Good Experience in **Java, OOPS Concepts, Collections, Exception Handling, String.**

- Ability to handle **Pop-ups, iFrames, Listbox, Actions and Dropdown boxes,** also to write the **xpath to locate the elements.**

- Having Knowledge of **Implicit, Explicit and Fluent Wait in Selenium Webdriver**.

- Worked on **Data Driven Framework** based on **POM** as a design principle and **TestNG** as an execution controlling tool.

- Experience of using **TestNG Framework** that **includes Assertions, Annotationns, Listeners for controlling the flow of execution.**

- Able to design the class using the **Page Object Model(POM)** as a design pattern for the corresponding pages and test classes.

- Familiar with the use of **Maven Framework** and tools like **GitHub and Extent Reporter.**

- Good Knowledge in **BDD Framework and Cucumber**.

- Experience with **Jenkins for scheduling the job and execute the script at the specific intervals.**

- **Good experience in automating Web Applications using Selenium Web Driver with TestNG Framework.**

- **Good communication skills**, both in writing and speaking.

- Clear communication with the team and the client to deliver the message.

- Working as a **Software Test Engineer** in **CRIF High Mark India,Pune** from **July 2019 to till date.**

PROJECT IMPLEMENTED

PROJECT 1 (Aug 19 – Nov 20)

Project Name : L0ccitane
Domain : **Retail Domain**

Description :

L'OCCITANE,(B2C) Buisness to customer based, Single Brand Website which sells different product through website. It includes beauty products, soaps, perfumes etc.

Responsibilities:

- Requirement Analysis: Understanding the requirements and communicating with BA team for better understanding of the requirements.
- Identified End to End Test Scenarios, Test Cases and Test Data.
- Writing effective and optimized Test Cases in JIRA-Zypher using Black Box Testing techniques.
- Execution of test cases from Test Lab in JIRA tool.
- Identification of defects, registering them in JIRA and reporting them to the onsite lead.
- Performing Functional Testing, Regression Testing and Re-Testing.
- Responsible for testing deliverables, prioritizes and monitors activities to meet such dates for individual assigned features.
- Creating and updating of the test scripts in regular interval by using the design principle called POM and controlling the execution with the help of TestNG Framework for the existing Data Driven Framework.
- Worked on both migration of existing scripts and development of new scripts in selenium.
- Preparing transition document for other team members.
- Active participation in weekly/daily status calls with the client.
  .

PROJECT IMPLEMENTED

PROJECT 2 (Jan 21 – Till Date)

Project Title : SWISSRE
Domain : **Insurance**

Description:

Products like auto insurance, life insurance, General insurance, individual life insurance, group medical insurance, group life insurance and financial services. Some life insurance rates are below industry average. It gives clients the option to suggest the plan based on the data entered by user for home, auto, and life policies to maximize discounts.

Responsibilities:

- Participate in Agile process grooming, Sprint planning, Story point estimation, Daily stand ups, Sprint demo and Retrospectives.
- Developed test plan and test cases.
- Test case execution and defect reporting in JIRA.
- Collaborated with different teams to work on high severity and high priority issues.
- Coordination with each product owners for integration testing.
- Coordination with Business users for UAT testing and Usability Testing.
- Manual and Automated Testing Approaches adapted in Agile methodology.
- Automated test cases with Selenium Webdriver, TestNG.
- API Testing with Rest Assured, Postman.
- Identified web elements.
- Used xpath and CSS selectors to find dynamic elements.
- Automated cross browser testing for IE, chrome and Firefox .
- Reported bugs into Jira.
- Sent weekly progress reports to test manager.
- Jenkin integration with MAVEN and TestNG.
- Page object model and page factory implementation for Test suite.
- Jenkins for scheduling the job and execute the script at the specific intervals.

PERSONAL DETAILS

Date of Birth	20 Jully 1998
Current Address	Venture city Moshi, pune
Nationality	Indian
Gender	Female

Declaration

- I do here by declare that the above information is true and complete to the Best of my knowledge and belief.

Name**- Ashwini Sabale**
Cell no**- (+91) 9322533482**
