IT Source Technologies Ltd.	Dec. 2015 – Jan. 2017
Softenger India Pvt. Ltd.	Oct. 2013 – Nov. 2015

Technical Skills:

Oracle Database Version	Oracle 10g, 11g, 12c, 18c, 19c
Database Utilities	RMAN, DBUA, NETCA, OEM 12C, Export, Import, RDA, DBVERIFY, ASM, SQLT, Data guard
Ticketing Tool	JIRA, HP-SM (HP Service Manager)
DevOps	Terraform
Cloud Tools	DBCLI, OCICLI

Education:

- M.Tech (Computer Science & Infrastructure) – Birla Institute of Technology and Science, Pilani 2021-2022, CGPA: 8.57/10.
- B. Tech (Computer Science & Engineering) - Sir Padampat Singhania University, 2008-2012, CGPA: 6.83 / 10.

Certifications:

- Oracle Cloud Infrastructure Security 2021 Certified Associate.
- Oracle Cloud Infrastructure 2019 Certified Architect Professional.
- Oracle Cloud Infrastructure 2019/2018 Certified Architect Associate.
- Oracle Autonomous Database Cloud 2019 Certified Specialist.
- Oracle Cloud Infrastructure 2019 Certified Cloud Operations Associate.
- Oracle Certified 11G Database Administrator Associate.
- ITIL ® Foundation Certificate in IT Service Management.
Registration Number: - 5376484.20405593

Project Profile:

Project#1: ACT Enviro

Industry: Hazardous Waste Management & Disposal Services

Company: Vast Edge Inc.

Responsibilities:

- Creation of OCI Tenancy.
- Creation of all cloud resources using Terraform.
- Creation of various Windows and Linux Instances on Public and Private Subnet.
- Creation of IAM Users, Federated, Groups and Policies.
- Provisioning of VM and Autonomous (ADW) Databases.
- Migration of their on-premises database to ADW Database.

- Installation of SQL Server 2016 on OCI Instance and migrate the SQL on-premises database on OCI.
- Creation and Configure Load Balancer on OCI.
- Creation of VPN Connections and different Network Gateways.
- Provision Oracle Analytics Instance and created reports on DV and OAC native.
- Installation of WebLogic Server 12c, creation and configuration of domain.
- Cost Management.
- Enabled Cloud Guard and WAF.
- Configuration of database backup.
- Database Patching.
- Creation of Object Storage Bucket.

Project#2: BIS Computer Solutions, Inc.

Industry: Software, Computer Systems and Networks

Company: Vast Edge Inc.

Responsibilities:

- Provisioned Autonomous Transaction Processing Databases (ATP) in various regions.
- Migration of Oracle Database on ATP.
- Creation of Custom Image of Compute Instance and make a new instance from that custom image.
- Creation of ORDS Instances, configured Apex 20.1 with ATP Database.
- Creation and Configuration of Load Balancer with ORDS instances for High Availability.
- Enabled Dataguard for ATP Databases.
- Provisioned MySQL DB System on Linux Instance.
- WebLogic 12.2.0.1 and 10.3.6 Patching.
- Configuration of SSL certificates on Load Balancer.
- Cost Management of Tenancy.

Project#3: Telenor

Industry: Telecom

Company: Tieto India Pvt. Ltd.

Responsibilities:

- Installation of different versions of Oracle Database versions 12C, 11g on Oracle Linux.
- Patching on Oracle Database and Grid.
- Upgradation of Oracle Databases from 11.2.0.4 to 12.2.0.2.
- Creation of Database Links.
- Creation of Database Login Triggers for Audit Purpose.
- Import Export for tables, schema.
- Gather stats for tables, schema.
- Installation of different versions of WebLogic versions 12c, 11g on Linux.
- Patching on WebLogic.
- User Management, tablespace management for MEC.
- User creation in databases and WebLogic.

Project#4: Bank of India- RRB

Industry: Banking

Company: Softenger and IT Source

Responsibilities:

- Experience in Administering Oracle Databases Supporting Oracle 10g & 11g.
- Installation of different versions of Oracle Database on UNIX and Windows Platform.
- Oracle Silent Installation on HP-Unix.
- Understanding of Oracle Architecture.
- Daily health checks of all databases and file systems.
- Troubleshooting performance issues.
- Using DBCA or manual method to create and configure a Database.
- Perform Restoration of database to validate backup is consistent or not.
- Upgradation of Oracle 10g (10.2.0.3) to Oracle 11g (11.2.0.4) on HP UNIX Servers.
- Migration of Database from Oracle 10g (10.2.0.4) to Oracle 11g (11.2.0.1) on Windows Server from 2003 to 2008.
- Performing Database Switchover and Switchback Activity in every quarter.
- Applying CPU and PSU patches on UNIX and Windows Environment.
- Implement MTS (Shared Server) for Oracle 11g Database.
- Creation of DR Database on Windows Platform.
- Taking RMAN Incremental Backup.
- Report Server Database Creation on DC for Switchback and Switchover Activities.
- Performing Log Shipment manually or by rman incremental through SCN number.
- Implementing Real Time Apply (RTA) in all databases.
- Taking import and export of statistics, tables and schema's.
- Taking Full RMAN backup on Windows and Unix Environment.
- Installation of OEM 12C on HP-UNIX.
- Adding, renaming and resizing redo log members and groups.
- Checking database growth as per requirement.
- Capturing sql_id and queries by creating staging table.
- Giving support for quarterly, half-yearly and year end closing activities.
- Taking exports of tables from one database and importing its stats in another database.
- Taking AWR and ASH Reports for various databases.
- Checking execution plan of queries.
- Creation of tablespaces, adding and resizing data files. Also reclaim unused space.
- Sending Audit reports.
- Oracle Client Installations and connection with ODBC.
- User and Resource Management.
- Raising SR with Oracle Support for any performance issues.
- Actively participated in CAB and TAB

Achievements:

- Received Appreciation from client for successfully deliver the projects on time and for successful switchover and switchback drill.

Web Presence:

- LinkedIn Profile: - <https://www.linkedin.com/in/ayushgokhru/>

Soft Skills:

- Positive Attitude and Self Confidence.

- Team Player.
