

## Resume

Gauri Potdar  
Software Engineer , Marks Technosystem Pvt. LTD,Pune  
[Gpotdar1992@gmail.com](mailto:Gpotdar1992@gmail.com)  
Cell No :- +91 -7350227187/8208710174

Core Technology Involvement : Core Java \*\* Advanced Java- J2EE\*\* ORM- Object relational Management \*\* Webservice- REST \*\* Hibernate \*\* Spring Boot\*\*Spring MVC \*\* JDBC Template \*\* IOC \*\* Maven \*\* Git \*\* Log4j \*\* Postman \*\* Eclipse \*\* Apache tomcat \*\* Agile and Waterfall \*\* TestNG \*\*

Domain/System/Vertical : Telecom OSS

### CARRIER OBJECTIVE:

A challenging carrier as a **software engineer [Java Developer ]** where software Development skills can be effectively used and upgraded.Looking for a challenging career in the field of IT-Software especially **Java Programmer & Designer** where my Strong a Java/J2ee knowledge and experience in **Programming** Concepts and Methodologies can be utilized for the growth of Organisation and client.

### EXPERIENCE SUMMARY:

- 3 Years of experience in software **design, development, implementation** using Java and J2EE Technologies.
- Strong knowledge in working with MVC architecture using Hibernate & SpringFramework.
- Expertise in developing Object Oriented Applications usingJ AVA.
- Complete Understanding of SDLC methodology using Agile Process.
- Enhancing the product as per client requirement.
- Good analytical and programming capabilities coupled with excellent decision making skills.
- Dedicated and highly ambitious to achieve organizational as well as personal goals.
- Expertise in full life cycle of Java Application Developments, Including **Analysis, Requirements Gathering, Design, Development, Implementation, Maintenance and Enhancements.**
- Coordinate with application architects to maintain knowledge on all functional requirements .
- Strong experience in Persistence Layer implementation.
- Experience in implementing complete Software Development Life Cycle - **SDLC** for various applications including Analysis, Design, Development, Implementation Testing, Maintenance and Support.
- Hands on experience in developing client/server and web-based applications.
- Good working experience with **Core Java, JDBC, MVC, TestNG,log4j, Hibernate ,Spring Boot,REST Webservice , Design Patterns, ApacheMaven,TomcatServer**
- Expertise in **OOP's Object Oriented Programming** like Java.
- Good working experience in application development using IDE's like Eclipse – Oxygen,STS tool.
- Involved in Application servers like web server Tomcat.
- Good experience with deployment and test cases using **TestNG** and application logging using the **Log4j..**
- Experience working in **Agile Scrum** and Waterfall Methodologies
- Team player with excellent communication and problem solving skills.
- Ability to quickly adapt to new environments and learn new technologies.

### TECHNICAL SKILLS:

Around 3 years of experience in Analysis, Design and n-tier component based applications using Core Java and J2EE, Spring(Core, Mvc,Restful,JDBC) Hibernate,Spring Boot, HTML..

- ProgrammingLanguages : CoreJava,j2ee
- Database : MySQL
- Framework : Spring(Core,MVC,Restful,JDBC,Hibernate, SpringBoot
- Sub-versioning : Git
- TestingFramework : TestNG
- LoggingTool : Log4j
- IDE tools : MyEclipse
- BuildTool : Apache Maven
- WebServer : Apache Tomcat Server.
- OtherTools : Postman, Swagger.
- Web-Service : REST –JSON
- OS and Networking : Windows XP,Windows 10,

## EDUCATIONAL QUALIFICATION:

B.E. in IT from North Maharashtra University.

## PROFESSIONAL EXPERIENCE SUMMARY:

- Currently working as a **Software Engineer [Java Programmer]** with **Marks Technosystems Pvt. LTD**, Pune since October 2017 to till date.

### Project-1

Project Name : Switch Integration

System/Component : Telecom OSS – Inventory Management

#### **Description**

QFX Switch5200 Gigabit Web Smart family of switches,user can achieve reliable business class network performance . These switches area lower-priced alternative to managed switches for wired connectivity while maintaining performance,Quality of Service(QoS)and scalability using a simplified web management interface.

To meet today's business demands, both software and hardware must work together as part of a unified network. The QFX5200 switches provide the foundation of the underlying data center infrastructure for Contrail Networking, a platform that enables automated policies and life-cycle management of data center fabrics. Contrail Networking abstracts the network connectivity using virtual overlays across legacy and cloud-native workloads running servers attached to QFX Series switches.

#### **Roles and Responsibilities :**

- Responsibilities–Participated in
- Actively involved in SCRUM meeting to discuss the issues.
- Debugging the code to identify and resolve issues and defects
- Writing well-design and test able code for Project Module.
- Determine operational feasibility and Products pecifications.
- Integrate project module component into fully functional software system.
- Maintaining Documentation for software functionality and maintaining industry standards.
- Ensure software is updated with latest features.
- Solely responsible for analysing, designing, coding and implementing several modules of this application.
- Involved in Implemeting Persistance Logic Using Hibernate
- Involved in Writing HQL ,Criteria API.
- Involved in coding for DAOs ,Services and controllers.

## PERSONAL DETAILS:

Father's Name	:	Mr.Madhusudan M.Potdar
Mother's Name	:	Mrs. Manorama Potdar
Gender	:	Female
Languages Known	:	English, Hindi, Marathi .
Date of Birth	:	4th September 1992
Current Address	:	urban gram society, medankarwadi,chakan,Pune.

Place: - Pune

Date:-

(Gauri Potdar)
