Internship and Trainings attended:

- Four weeks Internship at Tech-Fortune Technologies, Bengaluru. Gained basic knowledge about few Machine Learning Algorithms with R tool.
- Project (GESTURE CONTROL ROBOT) was selected by KSCST, Government of Karnataka.
- Attended one day workshop on "ripe atlas" organized by department of computer science and engineering in association with VTU FOSS group, VTU Belagavi.
- Attended one day workshop on "Cyber Security" organized by KSCST, Government of Karnataka at Angadi Institute of Technology.

Skills:

- Platforms : Windows, Linux

Technical Skills:

- SQL (Oracle Database)
- Manual Testing
- Core Java (Beginner)

Project undertaken:

- Implementation of Malware Detection Tool using Machine Learning (Final Year Project)
Detection of anomalies using a novelty detection approach has been implemented, Support Vector Machine (SVM) algorithm is demonstrated for the effectiveness of detection under different anomaly types undertaken into consideration.
The detection approach presented is designed to be adaptive and respond to new threats and challenges online and in real time under minimal computational cost
The main challenge of this project is we are detecting the malware using malicious dataset.

Strengths:

- Good communication
- Team Player
- Positive thinking
- Good Management Skills and Problem-Solving Ability.
