WORK EXPERIENCE

TECHWELL SOLUTIONS | SALESFORCE DEVELOPER

January 2021 – Present | Bangalore

Project - Center Management Application

- Awfis Space Solutions Pt. Ltd is Real Estate giant who has more than 100 Centres (Stores or buildings) across the country. Every Centre has lot of spaces (shops) to lease out or rent out. We are building an application for Awfis Space Solutions Pt. Ltd where they will be managing all their centres to capture all the status of the opportunity. If customer ready to take Space on Lease/Contract, we will be doing all the steps required to lease out the space in application.

Responsibility and Contributions |

- Involve in creation of triggers, apex, and asynchronous batch apex.
- Involved in creating objects, fields, record types, page layouts, related lists, validation rules.
- Worked on workflow, process builder and lightning flow.
- Responsible for building custom reports and dashboards.

Project – Discovery Village

Discovery Village is a resort and has their franchises across Karnataka in 4 locations. They have a website to make the resort bookings. They wanted an easy way to capture the missed calls from customers so that they can contact them at the earliest and do the needful. I was a part of development and workflows, securities.

Responsibility and Contributions |

- Responsible for creating the workflows, security management.
- Created templates and styles to the community.
- Responsible for email automation, Data-model (admin), OWD, Approval Processes, Process Builder.
- Responsible for building custom reports and dashboards.
