- Environment : **.NET Framework 4.5.**
- Front End : **C#, Asp.Net MVC 4, AngularJS.**
- Back End : **SQL Server 2014.**
- Connectivity : **ADO.NET.**
- Description : Anti money laundering refers to a set of laws, regulations, and procedures intended to prevent criminals from disguising illegally obtained funds as legitimate income. Though anti-money-laundering laws cover a relatively limited range of transactions and criminal behaviors, their implications are far-reaching. For example, AML regulations require that banks and other financial institutions that issue credit or allow customers to open deposit accounts follow rules to ensure they are not aiding in money-laundering.
- Role and Responsibility :
 - 1. Design, code & support software solutions that can easily be scaled depending on client's needs.**
 - 2. Maintain product quality by carrying out reviews, performing continual tests, analyzing feedback and managing software integration.**
 - 3. Participated in user requirements meetings in order to transform client needs into proposed application designs.**
 - 4. Collaborate closely with other team members to plan, design and develop robust solutions.**

➤ **SPOOLMAN and ERMAN (Innovest Agrotech Pvt. Ltd.)**

- Role : **Programmer, Team Leader**
- Team Size : **15.**
- Environment : **.NET Framework 4.0.**
- Front End : **C#(Windows Forms)**
- Back End : **SQL Server 2008.**
- Connectivity : **ADO.NET.**
- Description : This project is completely related with Piping Engineering.
SPOOLMAN is a piping spool, material and construction management software at shop/site useful for effective matching front analysis, work allocation, material allocation.

ERMAN stands for Erection Management, it is designed to handle all the erection functions in Piping. This Software efficiently takes care of all the activities of Planning, Fit-up inspection, Weld visual inspection QA/QC tests, PWHT inspection, System wise / loop wise tests and other process also done like Loop Test Clearance, Box Up clearance.

- Role and Responsibility: **1. Involved in requirement Gathering, design phase.**
