

Naren Bagavathy

UiPath RPA Test Developer, RPA Developer, and Business Analyst

Highly specialized in RPA Test Developer, having recently completed the "UiPath Test Automation on Udemy Business" and "UiPath RPA Associate Exam". I scored 87% on the UiPath RPA Associate Exam. My experience also stems from developing a test framework for RPA test management called the "UiPath Test Suite" to help organizations and individuals understand what good looks like in RPA test management.

EXPERIENCE

3 YEARS 5 MONTHS

UiPath RPA Developer

Icanio Technology Labs Private Limited
Nellore, India
04/2021 – Present

Developed the end-to-end automated business process using UiPath REFramework. Identified the reusable components in the project and created the libraries in UiPath. Gained extensive hands-on experience and knowledge of UiPath. Have thorough knowledge of SDLC from Requirement Analysis to Deployment.

Quality Engineer

Icanio Technology Labs Private Limited
Nellore, India
04/2021 – Present

Hands-on experience with source control tools such as GitHub. Great experience in doing functional testing. Deployed the project using Jenkins jobs. Experience in coding selenium test scripts and reporting test results on extensive reports and experience in manual testing. Basic knowledge of cucumber selenium with java and AWS.

UiPath RPA Test Developer & BA

Icanio Technology Labs Private Limited
Nellore, India
04/2021 – Present

Developed, configured, and maintained test plans including the test automation suites to validate the functionality and performance of software components. Coordinate the development, review, and submission of RPA milestone deliverables (i.e. PDD, and TDD). Identified, cataloged, and archived reusable code assets.

Associate Software Engineer

Patterns Cognitive
Chennai, India
09/2016 – 09/2018

I have 2 Years of experience in developing, integrating, and implementing web applications using Java/J2EE with experience in requirement analysis, designing, building, and implementing J2EE-based application solutions in the project environment.
