Professional Experience

Professional Software Development Engineer (Salesforce) [July 2021 – November 2022] Fiserv India Pvt. Ltd., Wadgaonsheri, Pune. (SIS Unit merged to Infinite Computer Solutions Project and Roles remains same)

Merged to -

Technical Lead [December 2022 - Current] Infinite Computer Solutions Pvt. Ltd. Pune.

Project 1 – Maintenance and Development (Assurant)

- Duration – July 2021- till now
- Role – Salesforce Development
- Skills Used – Salesforce Lightning Design System, JavaScript, AURA Framework, LWC and Apex.

Assurant, Inc. is a global provider of risk management products and services with headquarters in New York City. Its businesses provide a diverse set of specialties, niche-market insurance products in the property, casualty, extended device protection, and preneed insurance sectors.

Roles in Assurant-

- Worked in Agile model where we need to work on the Jira stories assigned in the Sprint.
- Analyze the Jira and Discuss the approach in the scrum calls and implement the same for the client.
- After Implementation we have to add our code to repository by creating the branches in the bitbucket. We use the git commands to push our code into the Repo.
- Need to Review the code of Team members before pushing it to further step.
- After pushing the code to repo, it goes through 2 to 3 sandboxes where we have to unit test them.

Salesforce Developer [October 2019 – June 2021] Fantail Technologies, Baner, Pune.

Project 1 – Maintenance and Development (Consumer Technology Association's **CES Show**)

- Duration – Jan 2020- till now
- Role – Salesforce Lightning Developer
- Skills Used – Salesforce Lightning Design System, JavaScript, AURA Framework and Apex.

CES is an annual trade show organized by the Consumer Technology Association. Held in January at the Las Vegas Convention Center in Las Vegas, Nevada, United States, the event typically hosts presentations of new products and technologies in the consumer electronics industry.

Project 2 – Maintenance and Development (**QBS Inc.**)

- Duration – October 2019- till now
- Role – Maintain and develop the existing Salesforce system as per the client requirements.
- Skills Used – Salesforce development, Apex, Lightning, Trigger, Workflows, Process Builder, Flow Builder, Apex Jobs, Test Class, Change Sets, Deployment, Data Loader and LWC Framework.
- Recently integrated the Salesforce platform with Angular and Cognito (User pool) to provide the user best experience to use the Trainer portal.

QBS has been providing quality behavioral solutions to complex behavioral challenges for more than 20 years across the U.S. and Canada. Learn more about our high-quality training and consulting available to your organization in a safe, teaching, and positive environment for the individuals you serve.

Project 3 - Maintenance and Development (National Association of Broadcasters **NAB**)

- Duration – October 2019 – till now
- Role – Maintain and Develop the Existing Salesforce system as per client requirements.

- Skills Used – Lightning, Apex, Salesforce community sites.

Salesforce Developer [November 2017 – October 2019] Nexus Soft, Pimpri Pune.

Project - Tracking Data for all Accounts (Cloud Investment Ventures).

- Duration – Nov 2017 – October 2019
- Role – Salesforce Application Administrator and Development, Creation of Objects, fields, permission sets, Validation Rules etc.
- Skills Used – APEX, Workflow, Triggers and SOQL

Cloud Investment ventures is an investment company that invests in 'Seed Stage' Companies. Cloud Investment Ventures uses Salesforce to track Data on all of the Accounts in which they have invested. So, for these team have to design the workflow rules, trigger and Visual Force pages as per their requirements.

Extra Skills:

- Familiar with AWS User Pool
- Worked on Angular for small developments which was integrated with Salesforce.

Tools used:

- Data Loader
- Work bench
