## SUMMARY

A Full Stack Developer with more than 4 years of expertise in the field. I've always had an eye for design and style. Worked with a variety of teams of various sizes and capacities. I can now Ideate, create, and deploy a tech product from scratch,

## CARRER HISTORY

### Senior Software Engineer

**MONOCEPT CONSULTING PVT LTD | DEC 2019 - PRESENT**

- I'm in charge of a four-person team. collaborating and delegating responsibilities to them.
- In the Shopify app store and the other major commerce app market, I created a sales conversion tracking app. This eliminates 100% of the tracking snippets being copied and pasted into the end-user application.
- For internal teams, create numerous chrome extensions.
- The inventor of the Custom UI library, which is used in a number of internal projects, created a layer on top of the Material UI.
- I worked on a mobile application called Husk Systems, where I set up the project architecture from the ground up and improved the app's speed.
- Built many NPM modules for a mobile app (Husk) for internal use (inside the company) to improve code reusability and development speed.
- Implementation of a force update for a mobile app in order to facilitate rapid prototyping and build releases (Code-Push).
- Played a key role in Technical Interview Panel for hiring new resources.
- Working closely with the team lead in a proactive manner has aided in project timeline adherence.
- I worked from the ground up to create the whole code foundation for various mobile applications and other projects.

### Software Engineer

**TRANSIN LOGISTICS PVT LTD | SEPTEMBER 2018 - DEC 2019**

- Truck Force, a Market Facing App, has a lead mobile application developer.
- Worked with an established team of developers and interacted with product managers and designers.
- Worked in an Agile (Scrum) Development Team to deliver regular updates to the business team and project managers.
- Involved in understanding functional specifications and developing creative solutions to meet business requirements.
- Developed user-facing applications using ReactJs from scratch.
- Written sync test & cron jobs in NodeJs.
- Setting up an Express Server in NodeJs worked on HTTP requests.

## LANGUAGES

- English
- Telugu
- Hindi

- Author of various microservices in NodeJS concerning different business entities
- Collaborated with a team in developing a SaaS-based mobile application.
- Explored AWS - EC2, Lambda, API Gateway, Cloudwatch, S3, Route53, Kibana, etc.
- Gained good knowledge of Micro Service Architecture.

### Software Developer

TITANISU ERDU | JULY 2017 - SEPTEMBER 2018

- Designed, developed, and optimized landing pages using HTML, CSS, Bootstrap to support the company's promotional needs which includes cross-browser compatibility.
- Designed and developed responsive websites using media queries for making them user-friendly.
- Experienced in identifying and quickly resolving problems during the initial stages of development.
- Fixed bugs in existing websites and implemented enhancements that significantly improved web functionality and speed.
- Improved coding of CSS and JavaScript to enhance functionality and user experience.

## EDUCATION

### BACHELOR OF TECH IN MECHANICAL ENGINEERING

Mahaveer Inst of Science and Tech | 2013 - 2017
