EXPERIENCE

Software Developer Intern | Food Vybe Inc.

October 2020 – Present (3 months)

● Currently assigned the task to design the front-end design for the company Web platform.
● Worked productively with BA Team to understand requirements and business specifications.
● Designed and automated the backend code for projects. Reduce the redundancy of code.

EDUCATION

Masters in Computer Applications | Patna University

July 2018 – Present

Percentage: 83.5% (till 3rd Sem)

Bachelors in Computer Applications | TIT, Katihar

July 2015 – May 2018

Percentage: 76.79%.

PROJECTS

E-Commerce | Personal Project (Ongoing)

MongoDB, ExpressJs, NodeJs, ReactJS, AWS S3 - (September 2020)

Developed a E-commerce website on MERN stack with responsive design and efficient architecture. Each user can sign up and shop as well as there is an Admin dashboard to track the order details of the customers. Also, integrated SendGrid, Multer-s3 (aws-s3) and various other features.

Password Management System | Personal Project

HTML, CSS, Bootstrap & ExpressJS - (May 2020)

Created a web app in which users can store their all username and password and manage them. Each user can sign up and then log in into their password database connected with MongoDB.
