CORE COMPETENCIES

- User Interface Design
- Front-End Development
- Web Application Development
- Project Visualization
- Stakeholder Engagement
- Team Collaboration
- Leadership and Team Management
- Software Architecture
- Application Integration
- Coding Standards

KEY HIGHLIGHTS

- CSS 3
- O HTML5
- Redux
- Typescript
- Angular 11
- Git
- React
- JavaScript
- react native

SOFT SKILLS

PROFILE SUMMARY

- Spearheaded advanced web development, user interface design, and comprehensive testing and debugging as a Software Development Engineer
 3 at Maveric Systems from December 2019.
- Showcased expertise in Angular, React, JavaScript, Redux, TypeScript, HTML5, CSS3, and Git, fostering effective teamwork and overseeing individual projects.
- Successfully crafted virtual representations of residential developments utilizing XD modeling software, elevating stakeholder visualization and project comprehension.
- Demonstrated robust leadership abilities, adeptly managing teams and ensuring the seamless integration of applications.
- Spearheaded UI Development initiatives, leveraging expertise in HTML, CSS, and JavaScript to craft intuitive and responsive user interfaces for diverse web applications.
- Managed front-end development projects, coordinating with cross-functional teams, adhering to project timelines, and ensuring seamless delivery of high-quality products.
- Directed and supervised team, demonstrating strong leadership skills to facilitate collaboration, motivation, and efficient execution of tasks in achieving project objectives.
- Orchestrated project management endeavors, overseeing timelines, budgets, and resource allocation, ensuring adherence to project goals and client expectations.
- Implemented agile methodologies, streamlining project workflows and enhancing productivity, resulting in the successful completion of multiple frontend development projects.

WORK EXPERIENCE

Since Dec'19 | Software Development Engineer – 3 Maveric Systems Pvt. Ltd, Bengaluru

Key Result Areas:

- Utilized XD modeling software to craft virtual representations of residential developments, enabling stakeholders to visualize projects and make well-informed decisions.
- Collaborated with the UI/UX team for initial story pointing, actively participating in reviews and status meetings to ensure project alignment and progression.
- Developed and implemented various modules, adhering to coding standards and conducting comprehensive unit testing for optimal performance.
- Contributed to the creation of functional specification documents, providing clear guidelines for project development and execution.
- Designed, coded, tested, and debugged software applications using modern programming languages and tools.
- Demonstrated proficiency in software development methodologies, design principles, and best practices.
- Contributed to architectural design and decision-making, ensuring scalability, performance, and maintainability of software solutions.
- Analyzed complex technical issues and provided innovative solutions aligned with project requirements.
- Collaborated with product managers, designers, and engineers to develop and deliver high-quality software products.
- Integrated the entire application and effectively managed a team, fostering a collaborative and efficient work environment.
- Successfully enhanced stakeholder visualization and project understanding by creating virtual representations of residential developments, leading to improved decision-making and project outcomes.

May'19 — Dec'19 | Senior UI Developer Tejas Softech Pvt Ltd, Bengaluru

Key Result Areas:

1

- Created a reusable component library using Angular Material for the web application, leading to accelerated development of new features and enhanced application performance.
- Integrated third-party APIs seamlessly into the web application for efficient data exchange and real-time updates, ensuring continuous data flow and updated information.
- Developed a responsive, modular single-page web application in Angular, implementing responsive design principles for optimized user experiences across various devices.
- Implemented custom services to efficiently manage the application state and establish communication with backend APIs, streamlining data management and processing.

PREVIOUS EXPERIENCE

- Dec'16 May'19: UI Engineer at Trelleborg India Pvt Ltd, Bengaluru
- Sep'16 Nov'16: Senior Developer at Hirexa Solutions, Bengaluru

EDUCATION

B.E(Electronics and Communication), Proudadevraya Institute of Technologies, Hospet
