### *Career Objective*

Ambitious Java developer with over 5.9 years of Experience and versed in following established procedures and working under little or no supervision. Offering technical expertise in programming analysis, application analysis and design. Excellent team player with in-depth knowledge of development tools and languages.

### *Summary of Qualifications*

- ✓ Overall, 5.9 years of experience as Software Developer.
- ✓ Dealt in analyzing organization requirements and accordingly suggesting business solutions
- ✓ Dedicated, hardworking individual with admirable interpersonal and communication skills
- ✓ Quick learner who adapts rapidly to emerging technologies
- ✓ Able to work independently and within a team-spirited environment.
- ✓ Excellent capability to explore, learn and understand newer business domains and technologies.

### *Technical Expertise*

#### **Programming Languages:**

- Java, Microservices (Basics)

#### **Web Technologies:**

- JEE, RESTful Webservices

#### **Web Frameworks:**

- Spring, Spring Boot

#### **Spring Technologies:**

- Spring Batch
- Spring Cloud (Basics)
- Spring Data JPA

#### **Scripting Languages/ Frameworks:**

- HTML, CSS

#### **DevOps & Automation Tools:**

- Git, Maven, Docker (Basics), Kubernetes (Basics)

#### **Web & Application Servers:**

- JBoss EAP

#### **Databases & Query Languages:**

- Oracle, PostgreSQL

#### **NoSQL:**

- MongoDB (Basics)

**Cloud Technologies:**

- Amazon Web Services (Basics)

**Front End Technology:**

- Angular 2 (Basics)

**Design & Development Tools:**

- Eclipse, STS, Visual Studio, Postman, MongoDB Compass

---

**Education**

- ✓ **BE** in Electronics and Communication from VKIT College of Engineering Bangalore, VTU Karnataka.

---

**Areas of Strengths**

- ✓ Innovative and able to grasp new concepts
- ✓ Learn/Update New Technologies and Implement it
- ✓ Excellent problem-solving skills with a strong technical background and good Interpersonal skills

---

**Achievements**

- ✓ Received Award of Excellence from the Client (Sprint)
- ✓ Received Award of Excellence from the Client (Societe Generale)

---

**Professional Projects****Project - 1: (Horizontal Integration India Private Limited) – (March 2023 – April 2023)**

**Project Name:** NBS\_N

**Technologies:** Java, J2EE, Spring, Oracle, MySQL, Hibernate (Criteria API), GIT, Maven, Tortoise Git, JBoss, Bootstrap.

**Client:** Crimson Logic

**Project Description:**

Crimson Logic is a Singapore based company. NBS is a Telecom based Project which was built using Java along with EJB. NBS\_N is kind of Modernization Project where we use Spring, Hibernate preferably Criteria API. JSP is used as a Front-End Technology along with Bootstrap.

**Roles and Responsibilities:**

- ✓ Responsible to design and code using frameworks that involves fetching data from backend systems and direct them to appropriate views

using Spring and Hibernate.

- ✓ Adapting the existing Queries using Hibernate (Criteria API)
- ✓ Responsible for writing RESTful Webservices whenever required.
- ✓ Responsible for writing the Java code to read the data from Oracle DB.
- ✓ Responsible to maintain software version control and configuration management system that provides controlled access to software assets by using GIT.

**Project - 2:** (Capgemini Technology Services India Limited) – (May 2021 – Feb 2023)

**Project Name:** ARRIMA-NEWN

**Technologies:** Java, J2EE, Spring, Spring Boot, Spring Batch, PostgreSQL, Spring Data JPA, GIT, Maven, Tortoise Git, MongoDB

**Client:** Societe Generale

**Project Description:**

Societe Generale is a French-based multinational and financial services. ARRIMA-NEWN has 3 different modules Prism (Risk Factor), Metrix (Finance Team) and Taxhub (Tax). Previously, these Modules were using IBM-DB2 as a Database. Now as part of NEWN, it is being migrated to PostgreSQL. All the Tax related transactions are under Taxhub. We usually get the data in the form of Flat Files from a third party called Azcore. Process the data by running SQL Queries and generate the Output Files in the of xml.

**Roles and Responsibilities:**

- ✓ Responsible to design and code using frameworks that involves fetching data from backend systems and direct them to appropriate views using Spring and Spring Boot Framework.
- ✓ Responsible for writing the Spring Batch code in java, to load the data into PostgreSQL.
- ✓ Designing, coding, and testing technical solutions using Java/J2EE technologies like Servlets, XML, JDBC, webservices.
- ✓ Responsible for writing the code to run the SQL Files via the Java code.
- ✓ Responsible for writing the Java code to read the data from PostgreSQL and generate the xml.
- ✓ Responsible to maintain software version control and configuration management system that provides controlled access to software assets by using GIT.
- ✓ Responsible to perform all the code deployment related works.
- ✓ Responsible for analyzing the Production defects, provide the fix in time.

**Project - 3: (IBM India Pvt Ltd) – (July 2017 – May 2021)**

**Project Name:** Retail Management System (RMS)

**Technologies:** Java, J2EE, Spring, Spring Boot, Oracle, GIT, Maven, Jenkins, IBM Rational, Restful Webservices, Tortoise Git.

**Client:** Sprint, USA

**Project Description:**

Sprint is one of the leading telecom sectors in US. Sprint Store is maintained to sell devices to Customer. RMS is one of the Retail Management System that is used by Client Sprint. RMS is used to sell Postpaid CDMA Network to Customer. RMS deployed in Sprint Stores. RMS gives Service to the Customer. RMS provides different purchase methods to the customer which includes Easy/Pay, Lease, Discount and Full Price. RMS has Back Office and Front Office. In Back Office, All the data and configuration for the user are maintained in the Back Office. The Customer related actions are performed in the Front Office.

**Roles and Responsibilities:**

- ✓ Responsible for maintaining REST services used in both Back Office and Front Office.
- ✓ Responsible to design and code using frameworks that involves fetching data from backend systems and direct them to appropriate views using Spring and Spring Boot Framework.
- ✓ Responsible for REST (Representational State Transfer) APIs and SOAP APIs that allow applications to interface with Enterprise Services backbone system
- ✓ Designing, coding, and testing technical solutions using Java/J2EE technologies like Servlets, XML, JDBC, webservices.
- ✓ Responsible to maintain software version control and configuration management system that provides controlled access to software assets by using GIT & IBM Rational Clear Case tool.
- ✓ Responsible to load static data from database into Elastic Search.
- ✓ Responsible to perform all the code deployment related works.
- ✓ Responsible for analyzing the Production defects, provide the fix in time.

### ***Personal Details***

Father Name	:	Bhaskar Rao
Mother Name	:	Rama Devi
Sex	:	Male
Marital Status	:	Married
Date of Birth	:	28 Feb 1991
Nationality	:	Indian
Languages Known	:	English, Kannada, Telugu
Permanent Address	:	Joladarashi Camp, Halapur Post Manvi Taluk Raichur District Pincode: 584120

### ***Declaration***

I hereby declare that above information is correct to the best of my knowledge and belief.
