- REDHAT Certified Architect – II (140-036-567)
- REDHAT Certified System Administrator ver. 7
- REDHAT Certified Engineer ver.7
- REDHAT Certified System Administrator in OPENSTACK Cloud
- REDHAT Certificate of Expertise in Hybrid Cloud
- REDHAT Certified Virtualization Administrator
- REDHAT Certified In Ansible Automation
- REDHAT Certificate of Expertise in Server Hardening
- REDHAT Certified Engineer in Openstack Cloud
- Certified AWS Solution Architect - Associate Level
- Certified Aws Solution Architect – Professional Level

### **PROFESSIONAL EXPERIENCE:**

**Sept. 2014 to May 2015**

**Dr. Radhakrishnan Institute ofTechnology, Jaipur**  
System and Network Engineer

- Full time roll on overseeing of Network Monitor & Managing.
- Managing Monitoring & Troubleshooting Networks Based issues.
- Managing & Administrate Windows Based server and Proxy server.
- Managing Network based Security & Hardware firewalls.
- For custom Online Exam controller and conducting IBPS Exam labs for Computer Network & Internet Network Security

**June 2015 to June 2019**

**Grras Solutions Pvt. Ltd.  
Linux Cloud Architect**

- Provided Support over the Redhat Linux based Administration and Custom Designed Course over the Linux Security, server deployment and Management
- Work Experience over cloud platform to manage various service, configure over redhat openstack platform and provide support to deploy Openstack in various project.
- Work with AWS Cloud based services EC2, S3, EBS , Glacier, VPC, IAM , ELB, Auto scaling, cloud watch, route53, Migration of Application and databases and various services of AWS.
- Deployment of Big data tools and ecosystem with Hadoop, spark, pig, hive,sqoop and Big data architecture.
- Deploy various project regarding to application server, Hosting Application over the AWS Platform.
- Knowledge to maintain, deploy ceph cluster, Gluster based storage, geo replication, data backup, storage node management and integration with cloud.
- Service Design by IAAC using terraform, ansible automation tools.
- Devops Tool expertise Jenkins, docker, container, grafana, datadog, kubernetes, ansible, MLOPS, Cloud OPS
- Server patching, server security, server update or kickstart management using ansible.
- Management and deployment of cpanel, plask panel, Dns, mail server, web hosting, website management, website migration, Domain management over vps, dedicated server
- Deploy, maintain & Administrate on Monitoring Tool Nagios Core, NRPE.
- Deploy Automation on server using Shell, python, Ansible.
- Provided various Deployment, Managing, and Monitoring & Troubleshooting on File server and apache server, Database management, backup server, file archiving or various Linux Projects managements.
- Manage Linux based security, ACL, file permission, SELinux, Firewall, iptables, AIDE.
- Deployed centralized log management server Over Tls ssl for Linux server.
- Managing Monitoring & Troubleshooting Networks Based issues.
- Expertise to Design Middleware application architecture and planning for DR system.
- Expertise to Design Hybrid cloud architecture with Openstack Cloud, Hybrid with AWS, Openshift and docker container, Kubernetes.

**August 2019 to Present**

**Highsky IT Solutions Pvt. Ltd.  
Devops Architect**

- Provided Support over the Redhat Linux based Administration and Custom Designed Course over the Linux Security, server deployment and Management.
- Work Experience over cloud platform to manage various service over aws and azure platform

- Work with AWS Cloud based services EC2, S3, EBS , Glacier, VPC, IAM , ELB, Auto scaling, cloud watch, route53, Migration of Application and databases and various services of AWS.
- Deploy various project regarding to application server, Hosting Application over the AWS Platform.
- Knowledge to maintain, deploy ceph cluster, Gluster based storage, geo replication, data backup, storage node management and integration with cloud.
- Devops Tool expertise Jenkins, docker, container, grafana, datadog, kubernetes, ansible. Cloud OPS
- Deploy Automation Using Terraform, Ansible over aws and azure platform.
- Deploy various cloud based security stack for multiple Projects.
- Deployment of Big data tools and ecosystem with Hadoop, spark, pig, hive,sqoop and Big data architecture over cloud platform.

#### PERSONAL DETAILS:

<b>Name</b>	:	Prateek Kumawat
<b>Father's Name:</b>		Sh. Yogesh Kumawat
<b>Date of Birth</b>	:	14 may 1992
<b>Address</b>	:	House no. c-101, friend's colony, sirsi road, Jaipur
<b>Nationality</b>	:	Indian
<b>Language Known</b>	:	Hindi, English
<b>Interest</b>	:	Watching Wrestling show, Novels

#### Declaration

I hereby declare that the above written particulars are true to the best of my knowledge and Believe.

PRATEEK KUMAWAT
