## About me

I am contributing my part in building this world a better place, one line of code at a time. Currently working as Software Developer at Curefit(recro) with total 3.6 years experience . I design, develop, test and deploy features which are critical in the growth of business of the company. For the half years, I have worked on a diverse set of problem statements and enjoyed every bit of my time so far.

## Skills

High level design

Low level design

Micro services architecture

Restful APIs

Data structures

Cloud architect

## Technologies

Nodejs, React, React native, Postgres, MSSQL, Redis, SQS, SNS, AWS Lambda, EC2, S3, Git,Sharepoint.

## Interests

I am a big fan of cricket and Indian cricket team, and can never say no to playing a cricket match. When free, I am either found watching some documentary, gaming or working on some pet project that I believe is super cool. I also love travelling, for it makes me philosophical and I love the new theory that come out of every trip.

## Education

2014-2018	B.Tech in Computer Science And Engineering Haldia Institute of Technology, C.G.P.A. = 8.3	Haldia
