PROFESSIONAL SUMMARY

- 3.5 Years of experience in EBS domain as an Oracle Ebs technical consultant involved in following projects implementation, support, and upgrade.
- Expertise in working complete System Development Life Cycle (SDLC) such as analysis, design, development, testing, implementation, and support with exposure in database.
- Created Technical designs (MD70, MD120) and analysis of MD50.
- Worked on Oracle EBS module of INV, PO, AP and XLA, GL.
- Worked on P2P Cycle. Aware of all the tables and data flow on each stage.
- Hands on experience on developing Interface using both Open interface and APIs.
- Worked on UTL_FILE pkg to develop outbound interfaces to generate the files with different format
- Expertise in developing PLSQL packages, procedures, and functions as per client requirement.
- Efficient in Creating and Using Cursors and collections for processing of data.
- Hands on Experience on Oracle and XML reports.
- Experience on Tool like Git, JIRA, flex deploy.
- Developed AOL objects for various concurrent programs, value sets, Lookups and DFFs etc.

TECHNICAL SKILLS

- **EBS Versions** : 12.1.3
- **Languages** : SQL, PL/SQL
- **GUI & Tools** : TOAD, Putty, Winscp, ServiceNow
- **Platform** : Windows Family (XP/7), Linux(basics)

WORK EXPERIENCE

- Working as Oracle Ebs technical Consultant from Oct 2020 to till date in Apsis Technologies.

EDUCATION

- BCom (computer applications) at Yogi Vemana University, kadapa in 2020.

PROJECTS UNDERTAKEN

Project (3)

HDS- (Home depot supply) Oracle Ebs Technical Consultant

HD Supply's two leading businesses units – HD SUPPLY FACILITIES MAINTENANCE and HD SUPPLY CONSTRUCTION & INDUSTRIAL – have more than 80 years of experience supporting our customers with leadership positions in the maintenance, repair and operations (MRO) and residential, non-residential and specialty construction sectors. With 270 branches and 44 distribution centers spread across 36 states and six Canadian provinces, HD Supply provides an expansive offering of approximately 800,000 SKUs featuring high-quality, name-brand and proprietary products – all at competitive prices.

HDS choose Financial/SCM modules for implementation and Enhancements.

Responsibilities:

- Finance and SCM related to bug fixes and enhancements for the existing Interfaces, reports, forms.
- Automation concurrent programs of the bugs for which issues are occurring repeatedly. This reduces the no of tickets flow in the month approx,10.
- Preparation of MD70 and MD120.
- R & D work for automations.
- Provided value add to the client on how to enhance/make better of existing process.
- Helping team members to understand the client business/process.
- Trained on cloud tools, source tree and Bit bucket. Have got opportunity to give the KT on the same to onsite and offshore team
- AOL activities, Deployment of objects using STAT
- Designed & Developed PL/SQL Validation procedures.
- Developed PLSQL scripts using **UTL_FILE** for extracting data from various modules using underlying tables.
- Code review before migrating code to production and performed transition activities.

Support:

- Sales orders used to stuck in various stages due to workflow got stuck.
- Created an oracle SR to get the one-time data fixes and get them automated using concurrent programs.
- Worked on Material transaction interface to fix the production issue.
- Sub Inventory transfer, Misc receipt and Misc issue transaction issue fix.
- Worked on PO line update issue.

Project (2)

Project : Upgrade
Client : Washington Suburban Sanitary commission(WSSC)
Environment : Oracle E-Business Suite upgrade from 12.1.3 to 12.2.9
Type : Upgrade

Project Summary:

The Washington Suburban Sanitary Commission (WSSC Water) is a bi-county political subdivision of the State of Maryland that provides safe drinking water and wastewater treatment for Montgomery and Prince George's Counties in Maryland except for a few cities in both counties that continue to operate their own water facilities. For this project we are involved in upgrading the EBS application from 12.1.3 to 12.2.9.

My Role:

- Upgrade and support

Objects Developed:

- Involved in folder structure creation in shared drive as per EBS custom top directories to maintain the objects accurately.
- Prepared the tasks for team members.
- Involved in custom technical objects retrofit (Packages/Views/procedures/Hash view#/Functions).
- Retrofit of file system objects Reports/forms/.prog/.sql files.
- Testing the programs effected by custom changes.
- Verified no impact objects whether those objects required code changes.
- Worked on post UAT migration support.
- Prepared shell script for migration activity.
- Prepared verification script to validate the objects post migration.
- Prepared MD120 document for manual configurations.
- Worked on tickets post UAT migration like signature missing payment printing report, file creation and transfer issues (concurrent program output file).

Issues:

- All standard register reports getting failed due to /usr/tmp permission issue post upgrade from 12.1.3 to 12.2.9
- For Eg: Receipt register report, Adjustment register report, invoice register report
- UTL_FILE_DIR deprecated in 12.2.9, hence all the UTL_FILE PLSQL program gets completed in error
- Need to change the UTL_FILE_DIR in DB server to make it work
- Need to make sure all the CUSTOM_TOP files are loaded properly
- Any custom file placed under standard APPL_TOP need to manually move to corresponding top
- Value set access with grant to the responsibilities.

Project (1)

Project : MTO
Client : MTO
Environment : Oracle E-Business Development/Support
Type : Support

Project Summary:

This is a project of material take off for which the company is doing their internal business with IR and ISO process.

- Worked on Interna requisition interface.
- Worked in PO interface with receipt for Inventory loading.
- Worked Misc issue to decrease the inventory quantity.
- Worked on reconciliation report.
- Worked available serial numbers report

- Worked on POC to update the partial quantity update on ISO lines, ISO cancellation, ISO line cancellation.

My Role :

- Implementation and Support.
