CERTIFICATION

Oracle Java certified Developer, Webservices expert and Web Development

Oracle Certifies (3 certifications in Oracle)

AWS Certified Developer, AWS Certified DevOps

Amazon Web services

EXPERIENCE

Senior Java Full Stack Developer

Cognizant

06/2020 - 03/2022 Bangalore, India

Cognizant Technology solutions Pvt Ltd

Environment: Java 8, Spring boot
Microservices, RESTful APIs, Angular 8 and Gradle

- Developed Java based full-stack web applications and exposure to Front end frameworks and JavaScript libraries like Angular or React to render data visually.
- Developed the code in Spring MVC framework and Angular components with Continuous Integration using Jenkins for check in process and modularized the code using SONAR rules.
- Ensure applications security using Spring security and ability to interact with multiple APIs and databases
- Developed and deployed Spring boot Micro services for reporting dashboard using REST API / SOAP
- Developed storefront components using Angular like Controllers, Directives, Providers to create a Single Page Application

Senior Java Developer

BORN Commerce Pvt Ltd

05/2018 - 07/2020 Bangalore, India

E-Commerce and Content Management

Environment: Java 11, REST API, Spring MVC, React JS, JUNIT and Hibernate

- Responsible for all iterations in Scrum Agile process in each iteration like Creating stories, Estimation, Technical design, coding, Unit testing, Integration testing to ensure high quality of delivery
- Developed reusable UI components using Angular, jQuery and JavaScript
- Developed code using Spring Framework for Dependency injection and integration.
- Implemented the ReactJS application to integrate dynamic pages with jQuery in dynamic page creation.
- Developed business service layer and data access layer using Spring and MongoDB.
- Developed backend REST API's and integrated with Angular services.

CERTIFICATION

SAP certified Hybris Developer and Business Associate

SAP , Java related Ecommerce Framework (SAP Commerce Cloud)

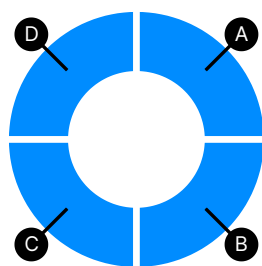

IBM Certified in Mobile WorkLight ,SOA , DB2 and Cloud

IBM

Android Certified Developer and Certified Engineer

Android ATC

MY TIME

- A** Analysis and Requirement Gathering
- B** Solutioning, Design and Development
- C** Development and Testing
- D** Code Quality

EXPERIENCE

Senior Java Developer

IBM Global Solutions

📅 05/2009 - 05/2018 📍 Location

IBM India Pvt Ltd , software consultant organizations

Environment: Java 8, REST API, Spring MVC, Angular 7 and Hibernate

- Responsible for all iterations in Scrum Agile process in each iteration like Creating stories, Estimation, Technical design, coding, Unit testing, Integration testing to ensure high quality of deliverables
- Responsible for development and updating controller, DAO and DTO classes using Spring web module integration
