## STRENGTHS

- Leadership
- Effective communication
- Problem solver
- Solution-oriented
- Positive Attitude
- Adoptability
- Collaborative

## PROFESSIONAL EXPERIENCE

Software Developer

Siemens, *Baner Pune*

August 2021 - Present

- RD&L(LIMS):

August 2021 – Present
- RD&L is a Laboratory Information Management System and it consists of Configuration and Operational unit, that enables strategy for the complete digitalization of manufacturing operations. They can capitalize on their R&D potential and develop new products faster, It integrate with other software used by company such as Label printing. Collaborated closely with cross-functional teams, including senior product managers, to gather and analyse requirements, translating them into actionable technical tasks.
- Responsibilities:**
- ❑ Responsible for coding and debugging the application, Migrated the code from Asp.net to .Net Core, Testing and analyzing various investigations of bugs.
  - ❑ Handled the Label Printing unit single handedly, manage templates for Label printing.
  - ❑ Worked on various functionality workflows in application like- Data Protection, License Server, AWS implementation of a sub segment Overlay.
  - ❑ Worked closely with QA and testing teams to guarantee the high quality and reliability of product features.
  - ❑ Implemented new features from scratch, built API, tables in databases which enhance user experience, shorten the response time.
  - ❑ Performed a thorough end to end development for each of the stories and once unit testing is completed provide a Demo of the working model to the product owner.
  - ❑ Worked on End-to-End User story with deployment on testing and Production environments.
  - ❑ Good at gathering requirements, Analyzes and develop as per client expectation, issue fixing, release deployment.
  - ❑ Work closely with stakeholders to ensure that the product backlog is delivered on time without error and incrementally according to the prioritized backlogs.
  - ❑ Analyzes dependencies of task on other teams, discussed with them and share it with all the stake holders highlighting all the risks and issues.
  - ❑ Involved in all the Agile ceremonies from Backlog refinement, Sprint Planning up to the Retrospective session.
  - ❑ Also helped Product Manager at stages with the documentation and PRD act as a APM

Software Engineer

Infogain Pvt. Ltd. , *Bopodi Pune*
