## ABOUT ME

*I am an enthusiastic person with 2+ years of experience in development with python Odoo ERP framework and Web Technologies, my aim is to work in a dynamic, growth oriented organization with full opportunities for learning and constant improvement.*

## EXPERIENCE

### Software Developer | Webkul Software's

01 2020 - Present

Noida, India

- In Webkul, I got the chance to learn and customize python Odoo enterprise framework based on MVC architecture. With the help of Odoo, I provide ERP solutions to clients according to their needs and requirements.
- While working with Webkul, I got the chance to develop Payment gateway Integration apps, Third party authentication apps for E-commerce website and ERP apps.
- Also I integrated Google Auth 2.0 api, Paypal payment api and Pinterest api with Odoo apps.

## EDUCATION

### Btech | H.C.S.T

08 2016 - 06 2020

Mathura, India

### Intermediate | Simpkins School

04 2014 - 03 2016

Agra, India

### High school | Simpkins School

04 2013 - 03 2014

Agra, India

## PROJECTS

### Multivendor Marketplace

- Worked as a Lead Developer in maintaining the addon development, issues, migration.
- Handled, From seller sign up to seller products, commission, payments and sale orders.

### Multi Vendor Credits

- Developed it from scratch maintaining the app.
- This app provides vendors to maintain their credits rules and credit limit on his/her products only.

### MVM API

- Developed the multi vendor API for mobile application's.
