WORK HISTORY

- Strong Hands on experience in Coding, Debugging and Database on the basis of functional requirement of software development.
- Modified existing software to correct errors, upgrade interfaces and improve performance.
- Experience in handling clients and working with multiple banks/clients/vendors and geographically distributed teams like American/Middle East Asia/African/Asian Unit.
- Adept at anything technical in nature as demonstrated by effectively learning and implementing concepts entirely new to me.
- Excellent leadership, interpersonal, planning, problem solving and communication skills.

06/2018 to current **Developer (Infosys Limited –Delhi)**

Amalgamation of Oriental Bank and United bank of India

- Oriental Bank of commerce and United bank of India merged with Punjab National Bank ,making it the second largest nationalized bank in India
- I was responsible for the core module (savings, current, overdraft etc. accounts) data migration. Since the database was very large, I implemented
 - Table partitions, Indexes, Materialized views, Collections, Analytical functions, Query Re-Write and Tuning.
 - parallel chunks execution
 - Exception handling in PL/SQL procedures/Blocks
 - shell scripting for automation
 - continuously evaluated executions plans of SQL queries
 - Developed Complex database objects like Stored Procedures, Functions, Packages and Triggers using SQL and PL/SQL.
 - Kept monitoring oracle wait events in order to maximize scale and performance.
 - Used tools like SQL Developer and TOAD.
- Been responsible for data sanctity, query optimization and database monitoring. Along with data, migration have been helping team members with customization issues across multiple modules. I was leading the data migration team.
- Responsible for smooth migration from Finacle 7x to 10x involving SingleByte to MultiByte Conversion + DB Migration, Performance Tuning, PLSQL Development.

10/2018 to 11/2018 **Developer (Infosys Limited – Mauritius)**

Bank One

- Bank has gone live on FINACLE 10x where I was part of the DATA migration team. I used the ETL tool for upgrading the database
- Created and used various database objects like tables, views, procedures, Collections, Oracle supplied packages, Dynamic SQL, Records ,PL/SQL Tables.

Created Tables, Views and Constraints, while migrating the data and helped the customization team members to fix/debug issues across multiple modules (Payments/Loans/CASA).

05/2016 to 05/2018 **Developer (EdgeVerve Systems Limited – Mumbai)**

Bank of Baroda

- The bank was in phase of migration from an old version to a new version of FINACLE where I had worked on customization in Interface track. This track involved extensive use of PL/SQL procedures and SQL functions for various reports and plain text files for input to third party systems.
- Involved in all phases of SDLC (Software Development Life Cycle) from analysis, design, development, testing, implementation and maintenance with timely delivery against aggressive deadlines.
- Did lots of hands-on on IBM MQ as well and was involved providing customization solutions/fixes for clearing, NEFT/RTGS payments

07/2015 to 04/2016 **Developer (Infosys Limited – Chennai)**

Indian overseas Bank

- The bank was moving from its legacy system and implementing FINACLE 10x where I had worked on customization in Interfaces module.
- My tasks involved to provide solution for existing legacy system requirements as per FINACLE in ATM reconciliation module and Overlook the whole batch Interface track in terms of analysis, development, testing and mentor new talents.

04/2014 to 06/2015 **Developer (Infosys Limited – Gurgaon)**

Royal Bank Of Scotland – INDIA division

- The bank was in phase of migration from an old version to a new version of FINACLE. My tasks involved providing solution to all the backend and frontend issues related to PL/SQL procedures, functions, tables, JavaScript etc.

07/2011 to 03/2014 **Developer (Infosys Limited – Mysore)**

Discover Financial Services

- The tasks involved requirement gathering, design of the HLD , getting final acceptance from the client and providing the solution with the help of FINACLE tools like FINACLE scripting, FINACLE Customization IDE and other backend and frontend technologies like SQL, PL-SQL , Java, JavaScript, HTML, OOPS etc.
- Did US Localization and worked on Reports in CASA module where I extensively used SQL, PL-SQL, FINACLE's MRT and iReport tool to create the jasper Reports as per US banking regulations.

EDUCATION

2010

B-Tech: Computer Science 75%

JAYPEE institute of Information Technology – Noida

2005

12th, CBSE 62%

Guru Tegh Bahadur Public School – Saharanpur

2003

10th, CBSE 65%

Guru Tegh Bahadur Public School – Saharanpur

ACCOMPLISHMENTS

- Received client appreciations for solving multiple complex issues efficiently despite stringent timelines.
- Received “Above and Beyond” Award in recognition for contribution in success of PNB 10x migration Project.
- Have received GEM of the quarter award under team category for successful GO LIVE of Finacle 10.x in DFS.
- Certified STAR Infoscion.
