LinkedIn Profile:

<https://www.linkedin.com/in/vishvas-bhayani>

Personal Details:

Date of Birth	09-02-1995	Gender	Male
Address	C-204 Divyajivan Heights, Near Swaminarayan Dham, Kudasan, Gandhinagar	Total Work Experience	4 years 3 months* **

* Inclusive of 4 months internship.

** As of September 2020

Career Objective:

Seeking a position in the field of Computer Science by which I can fulfil my career goals as well as organizational goals

Technical Skills:

- Programming Languages:** Apttus CPQ, CLM, Apttus E commerce, Apex, VisualForce Page, Salesforce, Salesforce API, Angular 2+, Javascript, JQuery, HTML, CSS, Dotnet MVC
- Databases:** Salesforce Custom Objects, MS SQL DBMS, Postgres DBMS
- Tools/Platforms:** Apttus, Salesforce, Visual Studio Code, Microsoft Visual Studio, Xampp Server, Notepad++ (PHP), pgAdmin 4, Tortoise SVN, SQL Server Management Studio, git

Work Experience:

- **SVI SDN BHD – TCS - SWIFT**

Time Period: 11 months* (November 2019 – Present)

Role: Software Consultant as a Contractor (BA)

Location: Kuala Lumpur, Malaysia

Technology:

Apttus CPQ, Apttus CLM, Angular 2+, Salesforce API, Salesforce Development (Lightning components, Apex, Visual Force Pages) and Salesforce Admin

Description:

I am working as a BA (Contractor) in SWIFT Malaysia for TCS Project. Project is based on Apttus CPQ, Apttus CLM, Apttus E commerce (based on Angular 2+ with Salesforce API in backend).

- **APTTUS**

Time Period: 15 months (August 2018 – October 2019)

Role: Consultant

Location: Ahmedabad, India

Technology:

Apttus CPQ, Apttus CLM, Angular 2+, Salesforce API, Salesforce Development (Lightning components, Apex, Visual Force Pages, Triggers) and Salesforce Admin

Description:

- Worked in sales engineering team to build POCs for customers on Apttus Products like CPQ, CLM, E-Commerce, X-Author for Word, X-Author for Excel etc
- These are part of Apttus CRM Quote-to-cash lifecycle
- I have worked on entire QTC flow from creating opportunities to Asset Manager. Also worked heavily on creating X-Author Excel App, creating templates in X-Author Word, Approvals, Deal Guidance, CLM life cycle etc.
- I have also created demos for Apttus E commerce which has various requirements from changing theme and UI order to create more functionality for assets or partner accounts etc.
- I was part of Apttus E commerce MDO to help build enhancement and utilities to showcase clients which are not part of roadmap.
- Most of these demos are Custom so often used to build VF Pages, Lightning Components, Apex classes or triggers.

such example is Single Click Installer. Which will install all necessary Apttus package in fresh Salesforce org by just a click. User can also select versions of those packages.

- **Cybage**

Time Period: 21 months (November 2016 – July 2018)

Role: Software Engineer (Full Stack Developer)

Location: Pune, India (November 2016 – February 2017) & Gandhinagar, India (March 2017 – July 2018)

Technology:

Angular 2+, Angular JS, javascript, JQuery, Html/CSS, SQL server Databases, PostgreSQL Database, .net with MVC, Entity Framework, .net API, SQL Server Database, PostgreSQL Database

Description:

- Worked in project which has MVC application and map based single page application built on Angular.
- In MVC Application data base is SQL Server which we use in Entity Framework as a model.
- In map based application data base is PostgreSQL which is good for storing geo data. On the UI side we created Angular Pages to make it single page which calls .NET Webservices APIs who internally get data from PostgreSQL by APIs provided by PostgreSQL.

- **nGageStudios**
