Projects

Therapy Associates and other WordPress projects <https://www.therapyassociates.com> (this site UI was changed)

- Therapy associates were a site in which client was managing their therapy process with the children of new jersey state in the US.
- I re-designed the whole system for them as per their requirements in WordPress with the following techs: HTML, CSS, Bootstrap, Datatables, export to PDF/Excel sheet, Digital signature, WordPress, import data from an excel sheet, etc.
- In this project, I was managing other two members.
- Also worked on many short-term WordPress projects.

UpViral - page builder (<https://upviral.com>)

- UpViral is an online viral marketing product, in which users were able to create different campaigns for their product promotions, advertising, etc.
- In this project, I created the page builder in React.js to create single pages for their campaigns from the scratch.
- This project was my first react project so I learned such class/functional components, redux, middlewares, hooks, webpack, etc.
