CAREER OBJECTIVE:

To work for a reputed Organization by expressing my Knowledge and Skills, coordinating with the team, and contributing my major role in the success of the Organization.

PROFESSIONAL SUMMARY:

- I have 12+ experience in .Net Technologies
- I have 10 years of experience in **SOLID PRINCIPLES & Design Patterns**
- Good 8 years' experience on IIS application deploying /Managing and Troubleshooting
- Got **12 years and 4 months (June-2011 to Till now)** Experience in design and development of windows,web based Client-Server Application and Mobile Applications using **Microsoft Visual Studio 2005,08,10,12,13,15-19,2022**
- I have 5 years good experience lead and Mentor Team
- Experience in DB Design and Administration over 8 years
- ☐ Experience in SSIS 5 years' experience
- ☐ Good knowledge in cloud technologies **Microsoft Azure Administration (IAAS,PASS and SASS)**
- ☐ Good Knowledge in AWS (S3 and SNS) Service integration with .Net technologies
- ☐ Good knowledge in source repository (tortoise SVN, GIT and TFS)
- ☐ Good knowledge in CI/CD applications
- Experience in **C#.NET, LINQ, ASP.Net, ADO.NET, VB.Net, .NET Framework 3.0,3.5,4.0,4.5, .Net Core**
- Strong Database Design and Development experience with **SQL Server 2005/2008/14/16/18/19 , MYSQL Workbench** that includes developing **SQL Objects and DBA**
- Experience in Software architecture 5 years
- Experience in scripting such as **Java Script, jQuery, Angular , React Js and Node Js**
- Experience in UI technologies such as **HTML5, CSS3, AJAX and Bootstrap**
- ☐ Experience in **Cloud** technologies such as **AWS, Google, Alibaba, Microsoft .**
- Having Predominant Knowledge in Object-Oriented Programming concepts and experience in the full life cycle of the software development process.
- Experienced in programming development, along with ability to deal with database Objects such as Stored Procedures, Views, and Triggers etc using ADO.NET.
- Understanding of Microsoft Technology potential as well as Database Management system.
- Having significant experience in support of Client/Server application development
- Highly motivated and energetic self-starter with good analytical, organizational, creative and interpersonal skills.
- Ability to handle multiple tasks and work independently as well as in a team.

TECHNICAL SKILLS:

Operating Systems	:	Windows, Linux and Mac
Programming Languages:		C, C++, C#.Net, VB.Net, LINQ
Technologies	:	.Net/.Net Core framework, Entity Framework ADO.Net, ASP.NET, MVC, HTML5, CSS3, JavaScript, jQuery, Ajax, Angular, NodeJs, React Js, MSUnit/NUNIT/Moq Unit Test Framework, TDD,DDD, KAFKA,RABBITMQ,SIGNALR
Services	:	Web Services, WCF, Web API, Windows Service, Microservice
Databases	:	SQL Server 2005/08/12/14/16/18, MySQL, Oracle
Reporting Tool	:	SSRS, SSIS, SSAS, Crystal Reports
Cloud Technologies	:	AWS and Microsoft Azure
Architectures	:	Web API, Solid Principle, Design Principles ,TDD 3-tier Architectures, MVC, N-Tier Architecture
Methodologies	:	Agile , Linear

PROFESSIONAL WORK EXPERIENCE:

- **From July-2021 to Till** working as a **OnSite .Net Technical Program Lead** in **Internet wallet Myanmar Limited** at **Myanmar Country**
- **July-2019 to June-2021** worked as a **Onsite .Net Project Lead** in **Internet Wallet Myanmar Limited** at **Myanmar Country**
- **Dec-2015 to June-2019** worked as a **OnSite .Net Team Lead** in **Internet Wallet Myanmar Limited** at **Myanmar Country**
- **Aug-2014 to Oct-2015** worked as a **Sr. Software Engineer** in **TenPath** at **Hyderabad**
- **June-2011 to July 2014** worked as a **Software Engineer** in **Web Wonders** at **Hyderabad**

EDUCATION:

- 2008-2011 MCA (Master of Computer Applications) with 70% in Andhra university
- 2005-2008 Bachelor of Science (M.P.E) with 60%% in Andhra university.
- 2003-2005 Board on Intermediate (M.P.C) with 65%
- 2002-2003 School secondary board with 80 %

PROJECT WORK:

1. OKDOLLAR (<http://okdollar.com/>) Dec2015 to Till now

CLIENT : Internet wallet Myanmar Limited

Current ROLE: .Net Technical Program lead

Technical Environment: .Net, C#, ADO.Net LINQ, Entity Framework, WCF, Web Api, MicroService,Azure,Angular,.Net Core, Entity Framework Core,React Js, NUnit/Munit/Moq unit test Framework,TDD,DDD,Agile,Linear,KAFKA ,RABBITMQ

Cloud Service: AWS and Microsoft AZURE

Database: MS-SQL 2019

Responsibilities:

- Lead development team on .NET platforms
- Collaborate with Agile team members to mitigate any technical impediments.
- Lead innovative approaches on infrastructure, performance optimization & automation.
- Participate in Production Support for incidents.
- Acts as expert technical resource to others on new technologies, design techniques.
- Enforces the reduction in duplicate processes, code
- Provides senior level IT technical lead services and direction
- Identifies potential solutions, including the cost/benefit of each option
- Communicates with stack holders/Clients on a frequent basis
- Reviews and approves documentation and diagrams created by IT team members, (e.g., system specifications)
-
- Based on the requirement deciding **architecture, Design Pattern and Solid Principle**
- design and development of application using C#, VB, Asp.Net MVC, Entity Framework, LINQ, Ado.Net, HTML, CSS, Bootstrap, XML, JSON, Oracle ,SQL server, JavaScript, jQuery, Xhtml, XML and Ajax.
- Experience in Agile Scrum Methodology and V model.
- Extensive experience on various versions controlling tools Like TFS, SVN and GIT on azure devops.
- Experienced in developing and consuming Web, Windows, WCF, Restful and Web API Services.
- Experience batch jobs, SQL Agent jobs, Schedulers, windows services deployed over OS core using bat files.
- Experience on deploying builds in Stage, Test, UAT & Prod including applications maintenance activities,
- Experience on branching and merging the code as part of source control and production support.

- Experience in consuming and configuring 3rd party api's including payment gateways
- Knowledge in UNIT test case executions.
- Knowledge testing the api using Postman, fiddler and swagger tools.
- Knowledge on Xamarin studio for cross platform mobile applications development.
- Knowledge on consuming google developer api's and Facebook for passport authentication, maps, reCaptcha etc.,
- Knowledge Telerik controls, itext sharp, ABC Pdf, and Redacting pdf's, exception handling and logger.
- Good knowledge on reporting tools like SSRS, Crystal Reports, Aspose and ABC pdf.
- Knowledge on web accessibility tools and ADA compliance compatibility.
- Good knowledge on sonar qube, Sql stress tool for Query optimizations including query execution plan changing using parameter sniffing and execution plan, sonar lint extension for VS and qualys tool for vulnerability management to fix security related issues.
- Knowledge in migrating JS version from legacy for fixing security issues.
- Experience in handling maintenance projects.
- Good communication skills, positive attitude, self-motivated, quick learner and good team and individual player.

Description:

Below all the projects implemented in Microservice using .Net core:

Its one Mobile Payment application name as OK\$ - its available in Play/app stores. It will fulfill daily need requirements for the Myanmar citizen. The app contains below features

CASH IN – It can be from Own Branches, Banks and Authorized merchants/Agents

CASH OUT - It can be from Own Branches, Banks and Authorized merchants/Agents

Mobile TOPUP (Postpaid and Prepaid)
DISH TV Recharge and GIFT CARDS

We are providing the UTILITY Services (ELECTRICITY bills, Municipality bills, Water bills, Tax payers)

Payment Gateway: Its OWN Platform. and provided to E-Business merchants. By using this user can able to buy online

We have dedicated Network systems (**Public, VPN**) to Connect with third party systems

This project We use AWS cloud system for SNS, S3

We have implemented below Projects in related to this application

1)KYC verification system with Face recognition

2) Bulk Transaction Report – This will be easy to monitor the business financial situation

3) Alert system: This is for tracking the Theft or Illegal Transactions

4) Bulk Telco Top-up: We make our portal and provided to third party organization. It will helpful to management can process top-up in single click with the authentication manner (**OTP, AES Algorithms for internal data security**)

5) Salary Portal: Every month we can process salary which is link with the ERP system. it will calculate the attendance and process salary. we are using here (OTP and RSA Algorithm)

6) TOPUP Monitoring system:

7) We are providing services to GOVT too paying tax bills

8) Single QR : Single QR system in Myanmar which is internally communicate with other banking services . As per Central bank of Myanmar T&C

Project#		
Project Name	:	DBOP Aug 2014 to Oct 2015
Client	:	Pekin
Role	:	Designing & Coding.
Team Size	:	15
Database	:	MS SQLServer 2008.
Environment	:	VB and ASP.NET,MVC 5.0,java script, jquery,css,WCF,WPF

Description : This is web based application.The main aim of this product is providing insurance to the clients . Based on the Coverages. They are divided the coverages based on the levels.

Levels are

1) Policy Level

2) Premises Level

3) Building Level

4)Occupancy Level

Responsibilities:

- ☐ Design, Development, Implementation and maintenance web applications using ASP .Net, Web services WCF Services, C#.Net, AD.Net, .NET Core, SQL Server jQuery HTML, XML and MVC.
 - ☐ Having Good exposure on C#, ASP.NET, ADO.NET, .NET Core, SQL Server.
 - ☐ Thorough understanding of web technologies like HTML, JavaScript and Angular JS.
 - ☐ Experience in working on ASP.NET MVC with Entity Framework.
 - ☐ Excellent troubleshooting techniques.
 - ☐ Experience in writing Stored Procedures using MS SQL Server
 - ☐ Gathering requirements, Preparing SDLC document and design documents as part of End-to-end Project development Life Cycle.
 - ☐ Experienced in Versioning tools like Team Foundation Server (Visual Studio), Tortoise SVN.
 - ☐ Ability to learn & develop using new technologies quickly.
 - ☐ Strong ability to prioritize multiple tasks. Excellent communication skills, proactive, self-managing and teamwork spirits.
 - ☐ Well-organized, goal oriented, highly motivated effective team member with excellent analytical, troubleshooting, and problems solving skills.
-
- ☐ Developed ASP.NET Core Web API based on departmental requirements and specifications.
 - ☐ Worked on Visual Studio 2015/ .Net CORE 1.0 Framework to implement Business Logic.
 - ☐ Worked with advanced concepts of ASP.NET Core MVC such as Models and Providers, Filters used for developing backend technology.

Project# June-2011 to March 2012

Project Name : APSFTVTDC[AP State Film Television and Theatre Development Corporation Limited]
Client : Government of Andhra Pradesh
Role : Designing & Coding.
Team Size : 3
Database : MS SQLServer 2008.
Environment : C# and ADO.Net Entity Framework, ASP.NET, WebServices, Javascript

Description : This is the web based application. This application is useful for the

Government of Andhra Pradesh . the application having information about all television and theatres in AP. By using this app we added the payments ,Noc ,Due Reports. It is architecture to maintain the accounts of all the theaters.

Role:

- Design, Coding, Compiling, Maintainance and testing of Programs.
- Performed requirements identification, system design and documentation.
- Developed and implemented application using C# and ASP.NET.
- Involved in the preparations of TCD and Unit Testing, Integration Testing and analysis to provide solution for several critical performance issues.

Project#

Project Name : Facility Management Services **April 2012 to July 2014**
Client : KL Security Services
Role : Designing & Coding.
Team Size : 3
Database : MS SQLServer 2005.
Environment : C# and ASP.NET,WCF,java script, jquery,css

Description : This is the product based application. This application is useful for the

The companies which are maintaining manpower like employees,contractors,clients. By using this application companies can easily maintain the services like contracts,manpower. As well as they can easily get the bills from clients,analyzing financial accounts

Role:

- Performed requirements identification, system design and documentation.
- Developed and implemented application using C# and ASP.NET.
