

## Shruti Shukla (ETL Tester)

+91-9770013682 [sshukla.2108@gmail.com](mailto:sshukla.2108@gmail.com)

---

### CAREER OBJECTIVE

To work in the best possible ways to add value to my career and the organization by utilizing my **4+ years** of Testing knowledge to provide an efficient quality product and services delivered to the client.

#### McDonald's – Senior ETL Tester – (2018-Present)

Accenture

- Worked on writing test scripts & test scenarios for validating end-to-end source and target data in ETL flow design in JIRA and maintained documents on Confluence/SharePoint.
- Responsible for testing data warehouse and data mart related extraction, transformation and load by creating simple to complex SQL queries for Data validation in SQL Server & Redshift.
- Worked on NoSQL databases like Cassandra, HBase to store structured and unstructured data.
- Monitored & tested the Talend ETL Data Load Jobs and backtracking the data issue on failure by analyzing with developers.
- Reported & mitigated high severity issue of Data Privacy in DBMS.
- Worked with Amazon S3 buckets to read and write files accessing via PuTTY.
- Managed the data Files (psv, gz, xml, JSON, csv) from the different servers in WinSCP.
- Involved in the testing of the source Database and the target Data warehouse to ensure data integrity and appropriate error handling in ETL Jobs.
- Communicated directly with Client & Stakeholders for demos/walk through regarding testing results

#### AmerisourceBergen Corporation – QA Tester – (2017-2018)

Accenture

- Developed Test Strategy, Test Plan, Test Cases, and Test Scripts as per business requirements and documented them in TFS tool.
- Maintain the requirements traceability matrix to verify all requirements were met as per the defined business processes and requirements.
- Performed smoke testing when migration requests to move the changes from development to QA / UAT / production environment.
- Collaborated with Project Manager and QA Lead to monitor and communicate status of showstopper and high severity defects.
- Attended Daily Release Planning Meeting with Developers and QA Team to discuss Software changes and configuration management.
- Experience in testing XML files and validating the data loaded to staging tables.

### TECHNICAL SKILLS

- **Testing Methods:** Unit, System, Integration, Regression, Smoke Testing, Ad-Hoc Testing
- **Database Mangement:** Dbeaver, Redshift, Cassandra SOLR, MS SQL Server, MySQL Workbench
- **ETL Tools:** Talend
- **File Management Tools:** PuTTY, WinSCP, AWS S3
- **Test Management Tools:** JIRA, TFS, MTM
- **Operating System:** Windows (XP, 7, 8, 10)
- **QA Skills:** STLC, Agile Testing & Waterfall methodology, Project Management

## ACADEMIC PROFILE

DEGREE	UNIVERSITY	YEAR	PERCENTAGE
Bachelor of Engineering	IET DAVV, Indore (MP)	2017	74.0%

## CERTIFICATIONS

- ISTQB Certified

## REWARDS & Recognition

Accenture Celebrates Excellence Award

Pinnacle Award for Collaborator

## PERSONAL PROFILE

- Date of Birth: 21-Aug-1995
- LinkedIn – [linkedin.com/in/shruti-shukla-a94714156](https://www.linkedin.com/in/shruti-shukla-a94714156)

## EXTRA CIRRICULAR ACTIVITIES

- Active member of project's PPA team and organized multiple events at project and Accenture level.
- Did multiple Brown Bag sessions on Testing Related topics.
- Involved in various CSR activities and initiatives and volunteered events.
