SUMMARY

I am a Full Stack AI Developer with 5.8 years of experience specializing in **AI-driven applications, LLMs, and RAG solutions**. Skilled in **React.js, Next.js, TypeScript, and Python**, I build intuitive UIs with **Tailwind CSS, Material UI, and Figma** while integrating **GraphQL, Redux, and REST APIs** for seamless functionality. Passionate about **Generative AI** and cloud-based AI solutions, I optimize performance, enhance UX, and drive innovation in modern web applications.

EXPERIENCE

Full Stack Developer
Invent Consultancy Services

📅 12/2020 - Present   📍 Ludhiana, India

A consultancy firm providing tech solutions for various industries.

- Developed an AI-driven personal assistant integrating Salesforce, Google Workspace, and video analysis tools to automate lead generation, email workflows, and real-time meeting transcriptions. Enhanced productivity by 30% through seamless CRM sync, calendar management, and task reminders.
- Built a desktop POS with real-time inventory tracking, barcode scanning, and offline-first architecture, reducing downtime by 50%.
- Developed a loan management dashboard with real-time data visualization, cutting data retrieval time by 40%.
- Led end-to-end development of a pharmacy platform, optimizing UI/UX for 30% faster workflows.

Frontend Developer
Chrishan Technology Pvt Ltd

📅 05/2019 - 12/2020   📍 Edmonton, Canada

A technology company focused on innovative solutions to all different sectors.

- Streamlined fund acquisition for lenders with predictive calling automation and borrower analytics.
- Built a competitive gaming UI with real-money integration and Discord connectivity.
- Designed a compliance platform for hazard tracking, improving incident resolution by 40%.
- Created a responsive online store with SEO optimization, boosting conversions by 25%.
