

Bhushan Ramrao Deshmukh

Software Test Engineer

Email bhushan11deshmukh@gmail.com

Phone : +91-9503172729

Objective

A Professional having **1.4** years of experience in software industry in **Manual** and **Automation Testing(Selenium WebDriver)** having an experience in **Smoke Testing, Functional testing, Non-Functional Testing, Cross-Browser Testing, Regression Testing, Re-Testing, Database Testing**, looking for an opportunity where I can utilize my skills and abilities to a good level and hence can grow more in software professional working.

Professional Summary

- ❖ **1.4** years of Experience in **Automation Testing** using **Selenium Webdriver** and **Manual Testing**. I have knowledge of **Selenium Web Driver** with **TestNG Framework** and its **Annotations, Assertions concept**, also familiar with **Maven Project** and also have knowledge of the **Core Java** concept.
- ❖ Knowledge of **Manual Testing, Functional Testing, Browser Compatibility Testing, Smoke Testing, GUI Testing, Regression Testing, Re-testing ,Database Testing, API Testing**. Experience in handling defect log using **JIRA**.

Employment History

Currently Working as Software Test Engineer at Brain Vision Technology, Pune from September 2021 to till date.

Technical Skills

Automation Testing Tools	Selenium Webdriver with JAVA
Database	Oracle
Defect Management tool	JIRA
Languages	JAVA
Operating Systems	Windows-10, Windows-8, Windows-7

Automation Test Skills

- ❖ Basic Knowledge of **Java ,OOPS concept, Exception Handling, String, Collection**
- ❖ Proficient in Test Automation using **Selenium Tool**.
- ❖ Good experience in creating, modifying and enhancing both manual **Test cases** and **Test scripts** created in **Selenium Web Driver**.
- ❖ Experience in automating Web Application using **Selenium Web Driver** with **TestNG Framework** and its **Annotations** and **Assertions concept**.
- ❖ Experience in finding **Xpath** Expression to identify WebElement on WebPages.
- ❖ Experience in handling different types of Elements, **ListBox, Pop Ups, Dropdown, Parameterization and Iframe**.
- ❖ Experience in performing **Mouse Actions, Synchronization, Finding Dynamic Xpath**
- ❖ Experience in working on **Page Object Model(POM)** Design Pattern.
- ❖ Executed test script on **Firefox** and **Google Chrome**.
- ❖ Having knowledge of **Implicit and Explicit Wait** in selenium webdriver.
- ❖ Familiar with the use of **Maven Framework** and tools like **GitBucket**
- ❖ Involved in **Test Case Design** and Test case **Execution, Defect Logging** and **Tracking**.
- ❖ **Good communication , Collaboration** with proficiency at grasping new technical concepts quickly and utilizing the same in a productive manner.

Manual Test Skills

- ❖ Good Experienced of various types of testing like **Smoke Testing, Functional testing, Recovery testing, Re-Testing, GUI Testing, Regression Testing, Globalization Testing, Database Testing**.
- ❖ Responsible for **Test Case Design, Test case Execution, Bug Tracking** and **Logging**
- ❖ Actively participated in **Scrum Meeting**.
- ❖ Have a knowledge of **SQL queries** for data verification using **DDL, DML, commands**.
- ❖ Knowledge of **Requirement Traceability Matrix** to map Business Requirement with Test Case.

- ❖ Good knowledge of Software development Life Cycle (SDLC) and Software Testing Life Cycle(STLC).
- ❖ Handled defect log using defect management tool **JIRA**.
- ❖ Update **Test Summary Report**.
- ❖ I have worked in **Agile Environment**.

Educational Qualification

BCA in 2021 from Amravati University with 70%

Project Name	<u>Smart Billing & Payment Options</u>
Domain	Telecom

Project-1 Description

My project is based on the Telecom domain specifically under the BSS (Business Support System) domain. We have multiple like millions of users using the service and each and every customer may have different requirements so to manage the usage in the proper way we have developed a CRM according to our customer requirements.

CRM(Customer Relationship Management) tracks and manages the customers data and maintains the customer history. So CRM helps in creating more leads, closes more deals and helps in growing the business. In CRM there are different modules available like DashBoard, Relationship, Contact Point, Interaction, Addresses, TagTT, Notes, Tag Inquiry, Emails Interactions etc out of those that have worked on Dashboard, Notes, TagTT. In Dashboard it includes general information and service information about customers, and then in that Notes Module, the operator can create the notes about customers' issues. then in that TagTT we can select the issue type and we can set the severity, also we can attach the screenshot as evident.

Roles and Responsibilities:

- ❖ Requirement Analysis: Analyzing the requirements and communicating with the Project Owner and team for better understanding of the requirements.
- ❖ Identified Test Scenarios, Test Cases and Test Data.
- ❖ Writing effective and optimized Test Cases using Excel sheet
- ❖ Performing Functional Testing, Regression Testing, Retesting, UI Testing.
- ❖ Involved in the creation of automation test scripts. Using the Selenium tool based on Hybrid Development Framework.
- ❖ Creating POM and Designing and implementing the TestNG framework to create Test classes for the framework.
- ❖ Logging and tracking defects in JIRA
- ❖ Monitoring and updating script as per new changes in build
- ❖ Run test suite and log defects accordingly
- ❖ Performing Regression Testing, Cross Browser Testing using Selenium WebDriver with JAVA.

Personal Details

- ❖ Name : Bhushan Ramrao Deshmukh
- ❖ Date Of Birth : 11st December 1998
- ❖ Marital Status : Single
- ❖ Languages : English, Hindi, Marathi
