Sethu Nguna

Professional Summary

Sethu Nguna has 10 years' experience within the higher education and skills development sector. Having worked as a facilitator, curriculum developer (face to face and online) and a programme coordinator, she is now coordinating and lecturing a first-year core module that aims to develop first year students' critical thinking and academic literacy skills for academic success.

Her demonstrated work style has an emphasis on improving technological infusion for innovation, efficiency and creativity.

A self taught intermediate coder with a passion for technology and its potential to change lives.
